Thursday, 8:00 a.m. Mocha Moments Café, Breakfast Club! These words appear in the calendars of four

women. Four very different women. Every week they meet for breakfast – and to talk, to share the truths they've discovered about their lives. To tell their stories, recount their sorrows and their joys. To offer each other encouragement and unstinting support. Claire has just been through a devastating and unexpected divorce. She's driven by anger and revenge until she learns something about her ex-husband that forces her to question her own actions. Forces her to look deep inside for the forgiveness and compassion she's rejected – and for the person she used to be. Elizabeth is widowed, in her late fifties, a successful professional – a woman who's determined not to waste another second of her life. And if that life should include romantic possibilities – well, why not? Karen is in her twenties, and she believes those should be the years for taking risks, testing your dreams. Her dream is to be an actor. So what if her parents think she should be more like her sister, the very respectable Victoria? Julia is turning forty this year. Her husband's career is established, her kids are finally in their teens and she's just started her own business. Everything's going according to schedule – until she gets pregnant! That's not in the plan. A time for emotional sustenance. A time to think about lives lived, choices made. A time for friends

How do you get a child interested in learning about finance? Give them a comic book! Robert Kiyosaki, author of the Rich Dad series, recognised the

increasing need for people to begin their their journey to financial literacy - and life-long wealth - as early as possible, even before they become teenagers! In *Escape from the Rat Race* basic lessons about 'working to learn, not to earn', buying assets and understanding the financial statement are revealed through the kid-friendly tale of Timid E Turtle. When Tim runs out of cash at an amusement park his savvy friend, Red E Rat, shows him how to make money work for him - and tells Robert T. Kiyosaki's own riveting account of learning the basic principles of financial success. Illustrated with full-colour sequential art that ties in to Rich Dad's popular cashflow games and Website, here's a book that allows children - and reluctant readers of all ages - the chance to take their first steps towards financial success.

## **Bug Out to Belize**

The award-winning author of *Founding Brothers* and *The Quartet* now gives us a deeply insightful examination of the relevance of the views of George Washington, Thomas Jefferson, James Madison, and John Adams to some of the most divisive issues in America today. The story of history is a ceaseless conversation between past and present, and in *American Dialogue* Joseph J. Ellis focuses the conversation on the often-asked question "What would the Founding Fathers think?" He examines four of our most seminal historical figures through the prism of particular topics, using the perspective of the present to shed light on their views and, in turn, to make clear how their now centuries-old ideas illuminate the disturbing impasse of today's political conflicts. He discusses Jefferson and the issue of racism, Adams and the specter of economic inequality, Washington and American imperialism, Madison and the doctrine of original intent. Through these juxtapositions--and in his hallmark dramatic and compelling narrative voice--Ellis illuminates the obstacles and pitfalls paralyzing contemporary discussions of these fundamentally important issues.

The amazing story of the charming little cottage that could—and the woman who rescued it "Tereasa's journey of renovation and resurrection proves that any one of us can make a difference when it comes to preservation." -James Peters, President, Landmarks Illinois When Tereasa Surratt decided to restore a dilapidated old cabin to its original state AND move it 245 miles from Illinois to Wisconsin, everyone said she was crazy. But she saw potential where others saw junk, and knew that with hope and a hammer there is always a way. To her, this cottage was not just a building, but a precious piece of her childhood and hometown that she was determined to keep

alive. A Very Modest Cottage follows Tereasa's adventures as she rescues this gone-to-ruin cabin and gives it new life as a guest cottage on the edge of the woods overlooking a peaceful lake. Moreover, she achieved her goal on a budget of around \$300. Part how-to guide, part scrapbook, and completely inspiring, this special memoir shows how even the simplest architecture can have a powerful emotional affectand that when you roll up your sleeves and work to make a dream come true, anything is possible.

## **Zen Pilot**

Where do your ideas about marriage come from? Do you expect too much--or too little--from your marriage? Dan B. Allender and Tremper Longman III have together written this inductive Bible study guide to help couples build healthy and happy marriages. Through six study sessions for individuals, couples or groups, they guide you in uncovering and addressing unmet expectations that you or your spouse may have about marriage. Intimate Marriage Bible studies bring spouses into deeper communion with God and with each other. In marriage a man and a woman are called to leave their families of origin, to weave their individual lives into a unity and to cleave to each other. How can fallen human beings even begin to

contemplate this ideal--God's ideal? These studies will help you take small but real steps toward honoring the image of God in each other and living out God's goal for marriage. As you explore and respond to Scripture together, you will discover strength and beauty in your marriage and become even more intimate companions.

### **The Nine**

Hannah Webber fears she will never be a mother, but her prayers are finally answered when she gives birth to a son. In an era of high-stakes parenting, nurturing Sam's intellect becomes Hannah's life purpose. She invests body and soul into his development, much to the detriment of her marriage. She convinces herself, however, that Sam's acceptance at age fourteen to the most prestigious of New England boarding schools overseen by an illustrious headmaster, justifies her choices. When he arrives at Dunning, Sam is glad to be out from under his mother's close watch. And he enjoys his newfound freedom—until, late one night, he stumbles upon evidence of sexual misconduct at the school and is unable to shake the discovery. Both a coming-of-age novel and a portrait of an evolving mother-son relationship, *The Nine* is the story of a young man who chooses to expose a corrupt world operating under its own set of rules—even if it means jeopardizing his mother's hopes and dreams.

### **New Proficiency Testbuilder**

'This book re-addresses the concepts of neighbourhood and community in a refreshing and challenging way. It will be of immense benefit, not only to town planners but also to al those professional and voluntary groups and politicians who seek to create the new communities of tomorrow' From the Foreword by Jed Griffiths, Past President of the Royal Town Planning Institute. There is widespread support for the principle of creating more sustainable communities, but much hazy, wishful-thinking about what this might mean in practice. In reality, we witness more the death of local neighbourhoods than their creation or rejuvenation, reflecting an increasingly mobile, privatized and commodified society. Sustainable Communities examines the practicalities of re-inventing neighbourhoods. It is neither an idealistic, utopian tract nor a designer's

manual, but is, rather, a serious attempt to address the real issues. This collection of expert contributions:

- \* examines the nature of local community and methods of building social capital
- \* presents the findings of a world-wide survey of eco-neighbourhoods and eco-villages with case studies from the United Kingdom, Europe, America and Australia
- \* develops a fresh perspective on the planning and design of neighbourhoods in urban areas, based on the eco-system approach
- \* explores practical programmes for local resource management and the implications for community-based decision-making
- \* provides a detailed appendix listing current eco-village and eco-neighbourhood schemes by country

Written by an interdisciplinary team of social and environmental scientists, town planners and urban designers, this is a thought-provoking and important contribution to both the theory and practice of the development of sustainable communities.

### **Game of Spies**

The rapid deterioration of the American health-care system, and the debate about what to do about it, is

generating a maelstrom of news stories, magazine articles, and books. But the average person finds it difficult to make sense of this blizzard of information. Because the health-care system is large and complex, and because the symptoms of its decline are numerous, comprehensive reports about the health-care crisis are extremely rare. Comprehensive reports in everyday language are nonexistent. The Health-Care Mess was written to fill that void. It assumes the reader knows nothing about health policy. As Kip Sullivan puts it, The Health-Care Mess is the book he wishes someone had given to him in 1986 when he, a community organizer, jumped into the cold, choppy waters of the health-care reform debate. At that time, he had no training in health policy. But in the course of studying the health-care system and explaining its problems to thousands of people, he discovered that health policy is not only accessible but fascinating. The book resembles a textbook in that it treats a complex subject comprehensively, and it is meticulously documented. But it doesn't read like a textbook. The author speaks in an informal, conversational style, he makes minimal use of jargon, and explains what jargon he has to use. And he is not coy about expressing his opinions. He believes the health-care reform debate has been unduly influenced by big corporations, especially those in the insurance and drug industries. He concludes that the health-care crisis will be solved only when America adopts a "Medicare-for-all" system, a system in which universal coverage is implemented by expanding a reformed Medicare program to all Americans. The Health-Care Mess explains the debate about what's wrong with the health-care system, and how to fix it,

in terms everyone can understand.

A riveting three-way spy story set in occupied France. 'Game of Spies' tells the story of a lethal spy triangle between 1942 and 1944 in Bordeaux - and of France's greatest betrayal by aristocratic and right-wing Resistance leader Andre Grandclement. The story centres on three men: one British, one French and one German and the duel they fought out in an atmosphere of collaboration, betrayal and assassination, in which comrades sold fellow comrades, Allied agents and downed pilots to the Germans, as casually as they would a bottle of wine. It is a story of SOE, treachery, bed-hopping and executions in the city labelled 'la plus collaboratrice' in the whole of France.

"I was rocketing toward the ground in an aircraft

loaded with high-octane aviation fuel. All I could do was negotiate where the impact would happen." Robert DeLaurentis had an impossibly big dream: to circumnavigate the globe in a single-engine piston plane. Meant to be the ultimate test of his flying skills as a pilot, the journey would take him to the ends of the earth and over some of the most inhospitable terrain on the planet. He diligently prepared himself and his plane, the "Spirit of San Diego," for the excursion. Having previously flown to far-off places, he thought he knew what to expect. But reality doesn't always make for the best co-pilot. What began as a call to adventure turned into a soul-defining mission riddled with equipment failure, fierce weather, foreign bureaucratic nightmares, and nearly ended in a crash into the vast Pacific Ocean. The voyage would stretch his limits, test his mental strength, and eventually define him. Beaten down, broken and discouraged, he found that the only way to survive was to surrender to the Universe. In this follow-up to *Flying Thru Life*, DeLaurentis shares the insights he gained for overcoming paralyzing fear, defeating obstacles, and confronting any situation with grace and ease. This raw, at times terrifying, real-life adventure will inspire anyone who loves flying, yearns to fly, or simply has their own "impossibly big dream." DeLaurentis' extraordinary journey shows us what it takes to be a Zen Pilot.
