Detecting Fraud in Organizations

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. --

Prentice Hall's Federal Taxation

Prentice Hall Federal Taxation

The Second Edition of this renowned treasure trove of information about the most important laws and treaties enacted by the U.S. Congress now deepens its historical coverage and examines an entire decade of new legislation. Landmark Legislation 1774-2012 includes additional acts and treaties chosen for their historical significance or their precedential importance for later areas of major federal legislative activity in the over 200 years since the convocation of the Continental Congress. Brand new chapters expand coverage to include the last five numbered Congresses (10 years of activity from 2003-2012), which has seen landmark legislation in the areas of health insurance and health care reform; financial regulatory reform; fiscal stimulus and the Temporary Asset Relief Program; federal support for stem cell research; reform of federal financial support for public schools and higher education; and much more. Features & Benefits: Each chapter covers one of the numbered Congresses with a historical essay, followed by the major acts of that Congress arranged in chronological order of passage - with each act summarized. A Finder's Guide summarizes all of the acts and treaties into approximately 40 separate topical policy areas. The work's extensive bibliography has been expanded and updated. This one-volume resource is a must-have for any public or academic library, especially those with strong American history or political science collections.

A savvy examination of where people and value meet, creating the opportunity for fraud An essential reference for all business professionals, *Detecting Fraud in Organizations: Techniques, Tools, and Resources* explains the process of how people commit fraud, as well as how to prevent and stop fraud from occurring in your organization. Organized by business processes which succinctly describe how fraud manifests itself on a daily basis, the authors explain ways in which everyone can help guard against fraud by familiarizing themselves with its building blocks and methods used to perpetrate and conceal it. Filled with situational examples the book is accompanied by a website featuring fraud simulations, business

process maps, and other useful tools for combating fraud. Focuses on the people who perpetrate fraud and those who are tasked with preventing and detecting it Uniquely organized by business processes for more relevance and easier understanding by those people working within organizations Shows how subtle factors play a large role in identifying and ferreting out fraud in addition to the traditional knowledge of fraud schemes giving people and organizations the edge they need to be successful in prevention and deterrence Companion website includes additional fraud simulations, business process maps, and useful tools The price of fraud can be devastating to your business. Detecting Fraud in Organizations: Techniques, Tools, and Resources equips you and others in your organization with essential information and tools necessary to proactively catch fraud, reduce losses, improve efficiencies and develop actionable controls.

The Meritocracy Myth challenges the widely held American belief in meritocracy—that people get out of the system what they put into it based on individual merit. The third edition has been revised and streamlined, with fresh examples and updated statistical information throughout. Chapters eight and nine have been combined into a comprehensive chapter about discrimination as a non-merit barrier to upward mobility. The book also features a new section on “The Great Recession.” The Meritocracy Myth examines talent, attitude, work ethic, and character as elements of merit, and evaluates the effect of non-merit factors such as social status, race, heritage, and wealth on meritocracy. A compelling book on an often-overlooked topic, The Meritocracy Myth has become a classroom classic to introduce students to this provocative topic.
