The National Eligibility cum Entrance Test (NEET) is conducted every year to grant admission to aspirants into MBBS / BDS courses across the country. From 2020 onwards, NEET is conducted by the National Testing Agency (NTA). Earlier, it was known as All India Pre-Medical Test (AIPMT) and was conducted by the Central Board of Secondary Education (CBSE). The Medical Council of India (MCI) has recommended the syllabus for NEET after review of various State syllabi as well as those prepared by CBSE, NCERT and COBSE. This was done to establish uniformity across the country keeping in view the relevance of different areas in Medical Education. NEET is held every year in the month of May. In the final test paper, there are

Documents of the Assembly of the State of New York

With a New Afterword "Our knowledge of fundamental physics contains not one fruitful idea that does not carry the name of Murray Gell-Mann."--Richard Feynman
Acclaimed science writer George Johnson brings his formidable reporting skills to the first biography of Nobel Prize-winner Murray Gell-Mann, the brilliant, irascible man who revolutionized modern particle physics with his models of the quark and the Eightfold Way. Born into a Jewish immigrant family on New York's East 14th Street, Gell-Mann's prodigious talent was evident from an early age--he entered Yale at 15, completed his Ph.D. at 21, and was soon identifying the structures of the world's smallest components and illuminating the elegant symmetries of the universe. Beautifully balanced in its portrayal of an extraordinary and difficult man, interpreting the concepts of advanced physics with scrupulous clarity and simplicity, *Strange Beauty* is a tour-de-force of both science writing and biography.
