### A Crack in the Sky

Contributions by Torsten Caeners, Phoebe Chen, Mathieu Donner, Shannon Hervey, Angela S. Insenga, Patricia Kennon, Maryna Matlock, Ferne Merrylees, Lars Schmeink, Anita Tarr, Tony M. Vinci, and Donna R. White For centuries, humanism has provided a paradigm for what it means to be human: a rational, unique, unified, universal, autonomous being. Recently, however, a new philosophical

approach, posthumanism, has questioned these assumptions, asserting that being human is not a fixed state but one always dynamic and evolving. Restrictive boundaries are no longer in play, and we do not define who we are by delineating what we are not (animal, machine, monster). There is no one aspect that makes a being human--self-awareness, emotion, artistic expression, or problem-solving--since human characteristics reside in other species along with shared DNA. Instead, posthumanism looks at the ways our bodies, intelligence, and behavior connect and interact with the environment, technology, and other species. In *Posthumanism in Young Adult Fiction: Finding Humanity in a Posthuman World*, editors Anita Tarr and Donna R. White collect twelve essays that explore this new discipline's relevance in young adult literature. Adolescents often tangle with many issues raised by posthumanist theory, such as body issues. The in-betweenness of adolescence makes stories for young adults ripe for posthumanist study. Contributors to the volume explore ideas of posthumanism, including democratization of power, body enhancements, hybridity, multiplicity/plurality, and the environment, by analyzing recent works for young adults, including award-winners like Paolo Bacigalupi's *Ship Breaker* and Nancy Farmer's *The House of the Scorpion*, as well as the works of Octavia Butler and China Miéville.

### **Empathy for the Devil**

The much-anticipated final book in New York Times bestselling author Kimberly

McCreight's Outliers trilogy. KEEP YOUR ENEMIES CLOSE. Wylie is finally out of the detention center, but that doesn't mean she's safe. As much as she wants to forget everything that's happened and return to her normal life, Wylie knows that true freedom means discovering, once and for all, who is hunting the girls who are Outliers—and why. Armed with only a few clues and a handful of trusted allies, Wylie sets out to separate fact from fiction. But soon she is unearthing long-buried secrets and finds herself entangled in a conspiracy that is much bigger and more dangerous than she ever could have imagined. Worse yet, the nearer Wylie gets to discovering the truth, the closer her enemies get to silencing her and the other girls. This time, maybe forever. In the explosive conclusion to New York Times bestselling author Kimberly McCreight's Outliers series, Wylie learns that when danger lurks in unexpected places, fighting for who and what you believe in can matter even more than you realized . . . and that trusting yourself might be the one thing that saves you.

Partridge's father, the Dome is unleashing nightmare after nightmare upon the Wretches in an effort to get him back. ### **The Cloud Atlas**

“You will devour these beautifully written—and very important—tales of honesty, pain, and resilience” (Elizabeth Gilbert, New York Times bestselling author of *Eat Pray Love* and *City of Girls*) from fifteen brilliant writers who explore how what we don’t talk about with our mothers affects us, for better or for worse. As an undergraduate, Michele Filgate started writing an essay about being abused by her stepfather. It took her more than a decade to realize that she was actually trying to write about how this affected her relationship with her mother. When it was finally published, the essay went viral, shared on social media by Anne Lamott, Rebecca

Solnit, and many others. This gave Filgate an idea, and the resulting anthology offers a candid look at our relationships with our mothers. Leslie Jamison writes about trying to discover who her seemingly perfect mother was before ever becoming a mom. In Cathi Hanauer's hilarious piece, she finally gets a chance to have a conversation with her mother that isn't interrupted by her domineering (but lovable) father. André Aciman writes about what it was like to have a deaf mother. Melissa Febos uses mythology as a lens to look at her close-knit relationship with her psychotherapist mother. And Julianna Baggott talks about having a mom who tells her everything. As Filgate writes, "Our mothers are our first homes, and that's why we're always trying to return to them." There's relief in acknowledging how what we couldn't say for so long is a way to heal our relationships with others and, perhaps most important, with ourselves. Contributions by Cathi Hanauer, Melissa Febos, Alexander Chee, Dylan Landis, Bernice L. McFadden, Julianna Baggott, Lynn Steger Strong, Kiese Laymon, Carmen Maria Machado, André Aciman, Sari Botton, Nayomi Munaweera, Brandon Taylor, and Leslie Jamison.

machinery has far too long muffled the engine that is her heart. When Alma's husband decides that they should set out to find their fortune in Florida, Alma has little choice but to leave her three children and ailing mother behind. But when Alma is then abandoned at a Miami dock, she is suddenly forced to make her own way in the world. With the help of a gentle giantess and an opium-addicted prostitute, Alma reclaims her children from the orphanage and forges ahead with an altogether new sort of family. As an act of survival, she chooses to run a house of prostitution, a harvest that relies on lust and weakness in men, of which "the world has a generous, unending supply." *The Madam* is the story of a house of sin. It is here where Alma's children will learn everything there is to know about "love and loss, sex and betrayal." Based on the real life of the author's grandmother, *The Madam* is a tale of epic proportions, one that will haunt readers long after its stunning conclusion.

Ezra Stocker is the son of an insomniac ex-Miss New Jersey named Pixie and a gay, absentee father; the stepson of an ex-quarterback dentist with a taste for turtle-patterned golf pants; and the grandson of a superstitious, stroke-addled woman with a passion for birds and some truly odd notions about fish and the family ancestry. He has created for himself a specific goal this summer vacation: to make a list of "Rules to Live By," his own set of guidelines to take him through life. A boy whose chief distinguishing traits include webbed toes and a knack for standardized aptitude tests, Ezra has no reason to expect that by the end of this particular summer, due largely to a doomed romance with a wealthy podiatrist's daughter and a fateful episode with a gun, every one of those rules will be tossed out the window. It's 1987 in Greenville, Delaware, but Pixie Stocker is consumed by the past. When she was Ezra's age, she too sought the secret rules and how-to's for negotiating life and attaining her dream of the all-American family. Pixie had found her answers in the comfortingly black-and-white strictures of Emily Post -- and later in the rigid absolutes of the beauty pageant circuit. Such certainties have long since vanished, replaced by the relentless haunting of her memory, and the ceaseless reverberations of a long-ago act of brutal violation. When Ezra's grandmother, disoriented from her stroke, reveals to her daughter an explosive and longburied family secret, she spurs Pixie toward a series of bizarre and dangerous choices in an endeavor to reclaim her tragic past and, for better or worse, start anew. In the pages of *The Miss America Family* Julianna Baggott creates as unique a voice -- and as idiosyncratic a sensibility -- as any novelist has

managed in years, extending her range and craft with dazzling, high-wire mixtures of absurdity and pathos, hilarity and darkness.

### **The Ever Breath**

When Lucy discovered that her charming, cheating husband was dying, she came home, opened up his little black book, and decided she wasn't going through this alone. After all, Artie's sweethearts were there for the good times—is it fair that Lucy should have to manage the hard times herself? In this wise, wickedly funny new novel, Lucy dials up the women in Artie's black book and invites them for one last visit. The last thing she expects is that any will actually show up. But one by one, they do show up: The one who hates him. The one who owes her life to him. The one he turned into a lesbian, and the one he taught to dance. And among them is a visitor with the strangest story of all: the young man who may or may not be Artie's long-lost son. For Lucy, the jaw-dropping procession of women is an education in the man she can't forgive and couldn't leave. And as the women find themselves sharing secrets and sharing tears, they start to discover kindred spirits—and even something that's a lot like family. But Lucy knows one thing for certain: the biggest surprises are yet to come.... Full of heart, Bridget Asher's unforgettable novel is about mothers and daughters, fathers and sons, and the deep friendships between women. It's about sweet liars and tenderhearted cheaters—about loving those we love for reasons we can't always fully rationalize,

and about the sort of forgiveness that can change someone's entire life in the most unexpected and extraordinary ways. From the Hardcover edition.

## Ecdysis

Lissy Jablonski was fifteen during the summer of 1985. That was the summer her father, a soft-spoken, seemingly passionless gynecologist, up and left her mother for a redheaded bank teller. The same summer Lissy and her mother disappeared from their quiet New Hampshire lives to have an adventure of their own amid a cast of unlikely characters, including a Valium-addicted ex-debutante and a suspected mobster. The summer the reliably comforting "girl talks" with her mother began to reveal startling secrets. It was also the summer that Lissy's mother would ever after refer to as "the summer that never happened." Now an almost-thirty-years-old advertising executive in Manhattan, faced with her father's imminent death and newly pregnant by her married ex-lover, an unmoored Lissy finds herself looking back across the years. Contending with her affections for an old boyfriend and his doomed marriage to a Korean stripper named Kitty Hawk, as well as the tangible legacies of that unmentionable summer with her mother, she realizes that she has become more like her mother than she ever could have imagined. In her debut novel, acclaimed short-story writer and poet Julianna Baggott has woven a precise, smartly comic, and compassionate tale of discovery and desire. With a lyrical sensibility, Baggott reminds us -- through the witty and unsparingly realistic voice of her narrator, Lissy -- of the pleasures and sorrows that can come from the most unreasonable realities of the heart.

his memories collide into one another, and the true nature of things, a narrative of love, of marriage, of family and of a tragedy Arthur does not know how to address emerges. Beautifully written and compulsively readable, *The Headmaster's Wife* stands as a moving elegy to the power of love as an antidote to grief. ### **The Way We Fall**

We know you are here, our brothers and sisters . . . Pressia barely remembers the Detonations or much about life during the Before. In her sleeping cabinet behind the rubble of an old barbershop where she lives with her grandfather, she thinks about what is lost-how the world went from amusement parks, movie theaters, birthday parties, fathers and mothers . . . to ash and dust, scars, permanent burns, and fused, damaged bodies. And now, at an age when everyone is required to turn themselves over to the militia to either be trained as a soldier or, if they are too damaged and weak, to be used as live targets, Pressia can no longer pretend to be small. Pressia is on the run. Burn a Pure and Breathe the Ash . . . There are those who escaped the apocalypse unmarked. Pures. They are tucked safely inside the Dome that protects their healthy, superior bodies. Yet Partridge, whose father is

one of the most influential men in the Dome, feels isolated and lonely. Different. He thinks about loss—maybe just because his family is broken; his father is emotionally distant; his brother killed himself; and his mother never made it inside their shelter. Or maybe it's his claustrophobia: his feeling that this Dome has become a swaddling of intensely rigid order. So when a slipped phrase suggests his mother might still be alive, Partridge risks his life to leave the Dome to find her. When Pressia meets Partridge, their worlds shatter all over again.

Spectacular as it is, Sham can’t shake the sense that there is more to life than the endless rails of the railsea—even if his captain thinks only of hunting the ivory-colored mole that took her arm years ago. But when they come across a wrecked train, Sham finds something—a series of pictures hinting at something, somewhere, that should be impossible—that leads to considerably more than he’d bargained for. Soon he’s
