Builder Energy Code Training Final Report

"Written by internationally recognized lighting consultant Randall Whitehead, this popular easy-to-read lighting design guide offers a highly visual introduction to the fundamentals for illuminating the single-family home. Emphasizing the use of "light layering" he advocates using a combination of lighting sources to create a cohesive and versatile lighting system. The book offers advice on design tools and room-by-room lighting strategies. This Second Edition includes a new chapter on how to implement the use of energy efficient lighting design, including updated information on LED lamps, CFL's and daylightng.

Also included are 32 pages of color plates demonstrating professional remodels of interior and exterior rooms; including contributions from interior designers, architects, landscape designers in collaboration with well integrated lighting design".
