Almost unknown to the rest of the globe, Xiaomi has become the world's third-largest mobile phone manufacturer. Its high-end phones are tailored to Chinese and emerging markets, where it outsells even Samsung. Since the 1990s China has been climbing up the ladder of quality, from doing knockoffs to designing its own high-end goods. Xiaomi its name literally means "little rice" is landing squarely in this shift in China's economy. But the remarkable rise of Xiaomi from startup to colossus is more than a business story, because mobile phones are special. The case of Xiaomi exemplifies the balancing act that China has to perfect to navigate between cheap copies and innovation, between the demands of local and global markets, and between freedom and control.
