worker, knows what it's like to feel trapped. So, her life's mission is to help young Amish women who want to leave the community. When one of the women she's working with goes missing, Sarah fears her meddling has come with a cost. A very heavy cost. Trevor Griffin has a plum job as a forensic accountant with the FBI in Buffalo, NY. When his niece doesn't return home after a weekend with friends, Griff tracks her phone to the small town of Hunters Ridge. When Sarah and Griff cross paths, they learn the two women both accepted a ride with the same driver before disappearing. The home of the driver is easy to track down, but the same can't be said of the women. Convinced the women's disappearances are connected, Sarah and Griff pool their resources to find them. Emotions run deep during this high-stakes investigation. Griff and Sarah discover themselves drawn together as they cling to the fleeting hope that the women they care about will come home. Safe.

Sentinels of History was conceived of as a way to mark the turn of the millennium by the Arkansas Historic Preservation Program. This generously illustrated book contains thirty-nine essays, each of which showcases an important Arkansas site and is written by a noted authority. Also included is a location map for these sites and a full appendix providing location information, county by county, for the more than two thousand surviving properties in

Arkansas (as of June 1999) that appear on the National Register. The essays are as wide-ranging as Roger Kennedy's placement of the Toltec Mounds at the time of Charlemagne, Donald Harington's sensitive look at the "bigeminal" architecture of the Wolf dogtrot cabin, and Neil Compton's egalitarian tribute to the Boxley Valley Historic District on the Buffalo National River. At least one current color photo of the site and one historic image are included with each essay. In addition, illustrations of the locations or structures listed in the appendix are scattered throughout sections. In all, Sentinels of History serves as a lavish inventory of historic properties in Arkansas at the end of the twentieth century.

This book deals with the development of philosophy and the story of mythologic philosophy. "The wonders of the course of nature have ever challenged attention. In savagery, in barbarism, and in civilization alike, the mind of man has sought the explanation of things. The movements of the heavenly bodies, the change of seasons, the succession of night and day, the powers of the air, majestic mountains, ever-flowing rivers, perennial springs, the flight of birds, the gliding of serpents, the growth of trees, the blooming of flowers, the forms of storm carved rocks, the mysteries of life and death, the institutions of society-many are the things to be explained. The yearning to know is universal. How and why are everlasting interrogatories profoundly instinct in humanity. In the evolution of the human mind, the instinct of cosmic interrogation follows hard upon the instinct of self-preservation Mythologic philosophy is the subject with which we deal. Its method, as stated in general terms, is this: All phenomena of the outer objective world are interpreted by comparison with those of the inner subjective world. Whatever happens, some one does it-that some one has a will and works as he wills. The basis of the philosophy is personality. The persons who do the things which we observe in the phenomena of the universe are the gods of mythology-the cosmos is a pantheon. Under this system, whatever may be the phenomenon observed, the philosopher asks, "Who does it?" and "Why?"

I'm A Bitchy Supporting Actress

Perhaps no one has keener insight into human nature than the small-town trial lawyer. All but lost in an era of corporate law firms and specialized practice, this charismatic figure was once at the political center of a community and was the holder of its many secrets. A small town attorney's only specialization was the town itself. Serving as both defender and accuser, these lawyers witnessed communities and individuals at their best and worst. Men and women of the legal profession often exert influence in seemingly small realms, but they play an important role in the lives of many people and help shape the American legal system. Veteran oral historian and folklorist William Lynwood Montell has brought together a fascinating collection of tales gathered from lawyers and judges throughout the Volunteer State. Montell searched small towns and cities across Tennessee for the law's older and middle age practitioners, and he shares the wealth of their experience in *Tales from Tennessee Lawyers*. These stories are recorded exactly as told by the lawyers themselves, and they reveal candid and unusual snapshots of the legal system—both past and present. With a tape recorder and an ear for detail, Montell uncovers events and lives ranging from the commonplace to the extraordinary. A man resorts to prostitution to alleviate the debt brought about by divorce proceedings. Identical twins are tried for a string of murders. A convict flees his trial by stealing the judge's car. A prosecutor tries the nation's first

school-shooting case. Judge George Balitsaris, a former University of Tennessee football player, escorts a special prosecutor out of a notorious rape trial as a precaution after the defendant's family issues threats. These and similar stories illustrate the strange, complex cases argued daily from Tennessee's largest cities to its smallest towns. Far more than just a collection of lawyer jokes, these recollections shed light on the tense and often dangerous lives of those who work to see that all receive fair representation and treatment in court.
