### **SAP Sales and Distributions Quick Configuration Guide: Advanced SAP Tips and Tricks with Variant Configuration**

In this book, noted expert Andrew Okungbowa explains SAP Asset Accounting (FI-AA) in SAP-ERP, including its associated business benefits, and guides you through the considerable complexities of SAP-ERP configuration. Using FI-AA for fixed asset management enables you to manage assets in multinational companies across a broad range of industries and produce reports to meet various needs in line with legal requirements. Configuring SAP-ERP can be a daunting exercise, however, and there are few resources that address these issues. Asset Accounting Configuration in SAP ERP fills that resource gap by covering the major aspects of SAP FI-AA for anyone with SAP experience and the basic accounting knowledge and bookkeeping skills necessary to apply configuration. It provides configuration explanations in the simplest forms possible and provides step-by-step guidance with illustrations and practical examples. What You'll Learn

- In-depth coverage of FI-AA syllabus
- How to configure FI-AA accounting in SAP
- How to integrate FI-AA accounting with other SAP modules
- How to explain the functionalities of SAP FI-AA
- Knowledge gained from real-world practical examples and case studies

Who This Book Is For The key target audience for this book includes SAP consultants, developers, accountants,

support organizations and beginners. It is also a resourceful learning manual for universities and institutions whose curricula covers SAP-ERP Asset Accounting.

### **Configuring SAP ERP Sales and Distribution**

Take an in-depth look at how basic financial accounting processes work in SAP S/4HANA in this practical guide. Learn about the SAP Fiori launchpad and how to find your way around the many apps available for finance with the help of screenshots and examples. Understand the finance organizational structure and master data and discover some of the SAP Best Practices for finance such as accounts payable and receivable, credit management, asset accounting, cash and bank management, and closings. Explore different ways to enter and upload G/L journal entries and what is meant by the Universal Journal. Run through the bank postings and different options for the bank statements. Go deeper into the structure of asset accounting, including the chart of depreciation, depreciation areas, asset classes, and depreciation methods. Learn about multidimensional reporting, KPIs, and the various analytical apps supplied with SAP S/4HANA.

- Financial accounting processes in SAP S/4HANA - Finance organizational structure, key financial master data - Daily transactions using SAP Fiori apps - SAP Fiori apps for displaying and reporting financial data

### **Configuring SAP Asset Accounting**

\* Detailed instructions on configuring SAP ERP Financials module \* Examples to clarify the tricky areas in a configuration \* Supported by screenshots to explain configuration of SAP financial module

### **Financial Account in SAP**

This book offers a comprehensive introduction to SAP ERP Controlling (CO). You will learn the basic fundamentals of the organizational structure, master data, and functions of SAP Controlling, including overhead controlling, product costing, month-end closing, and reporting. If you would like to understand the basic fundamentals of SAP Controlling, with examples based on a case study approach, this book is for you! Using a fictional chocolate manufacturing company case study, you will learn fundamentals based on several day-in-the-life scenarios of various key functions such as cost planning, production controlling, actual costing, and information systems. Get detailed information on how SAP CO integrates with other SAP modules and obtain insight into the different functional areas typically used in manufacturing organizations. Dive into SAP ERP master data elements and get tips on how to maintain consistent and accurate data. Review the various planning methods available and get an overview of cost center planning, including overhead planning and labor cost planning. Understand how SAP Material Ledger can be used to accurately determine costs. Identify how actual costs are booked and

absorbed. By using a detailed case study, practical examples, tips, and screenshots the author brings readers new to SAP CO quickly up to speed on the fundamentals. - Cost center and product cost planning, actual cost flow - Best practices for cost absorption using Product Cost Controlling - Month-end closing activities in SAP Controlling - Examples and screenshots based on a case study approach

### **SAP Billing and Revenue Innovation Management**

### **SAP ERP Financial Accounting and Controlling**

Configuring SAP Asset Accounting, based on the latest version of SAP S/4HANA Finance, is a complete guide to comprehend and configure SAP Asset Accounting (FI-AA). The book comes from the author who has written several books on SAP, including 'Configuring Financial Accounting in SAP ERP' (3rd Edition), by SAP Press (2018). This book follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of context-based additional information across Chapters, for better assimilation of concepts / settings. The entire content of the book has been presented as in SAP Implementation Guide with appropriate menu paths and Transactions. Coverage: SAP HANA SAP S/4HANA SAP S/4HANA Finance Case Study Asset Accounting: Overview Organizational Structures Structuring Fixed Assets in FI-AA Integration General Valuation Depreciation Special Valuations Master Data Transactions Information System Asset Data Transfer Preparations for Going Live Overview for Experts In this book: You will learn about SAP HANA, SAP S/4HANA and SAP S/4HANA Finance. You will learn how to use SAP FI-AA to manage your business entity's fixed assets internationally. You will learn how to portray your organizational structure. You will understand what a 'chart of depreciation' is and how the 'depreciation areas' enable managing the rules for asset depreciation / valuation. You will learn how to structure assets. You will learn FI-AA's integration with SAP's other application components, including G/L Accounting. You will learn how to manage general / special valuation, to meet differing business needs. You will learn how SAP supports both automatic (ordinary & special depreciation) and manual depreciation (unplanned depreciation & transfer of reserves). You will understand how SAP carries out depreciation calculation using 'Depreciation Calculation Program'. You will learn how information is arranged in an asset master record, in general master data area and in the data area for calculating asset values. You will learn about various 'transaction types', for carrying out asset transactions including acquisitions, retirements, transfers etc. You will learn about SAP Queries, asset history sheet etc., as a part of FI-AA Information System. You will learn how to undertake legacy asset data transfer into SAP FI-AA. As a part of going live, you will learn about production startup activities. You will learn how to use the 'overview for experts'

functionality to check / verify configuration. In all, you will find this book easy to use as a desktop-reference for configuring SAP FI-AA.

### **First Steps in SAP FI Configuration**

SAP S/4HANA Finance has transformed the CO-PA landscape! Learn about the updates and developments to profitability analysis in SAP S/4HANA Finance, and then configure your new system with step-by-step instructions and screenshots. Start with the basics: master data, actual value flow, and data enrichment. Then learn how to migrate your existing SAP ERP data into SAP S/4HANA Finance. The future of CO-PA with SAP is here!

### **Configuring SAP R/3 FI/CO**

This book offers a practical guide to SAP Material Ledger functionality and provides a solid foundation for understanding product costing as it relates to SAP Material Ledger (ML) and actual costing. Solidify your understanding of how SAP ML integrates with SAP FI, MM, PP, and SD. Walk step by step through a practical example of a complete manufacturing process and troubleshoot actual costing closing at month end. Explore SAP Material Ledger and actual costing configuration and dive into the prerequisites for multilevel actual costing runs by exploring the different types of cost variances. With this practical guide you will also obtain a list of SAP Material Ledger tables to support your product cost with material ledger reporting. By using practical examples, tips, and screenshots, the author brings readers up to speed on the fundamentals. - SAP Material Ledger functionality and key integration points - The most important SAP Material Ledger reports, including CKM3N - Tips for configuring, implementing, and using SAP ML effectively - Detailed steps for executing a multilevel actual costing run

### **Implementing Sap Erp Financials**

Finance professionals, it's time to simplify your day-to-day. This book walks through your financial accounting tasks, whether you're using SAP GUI transactions or SAP Fiori apps in your SAP S/4HANA system. For each of your core FI business processes--general ledger accounting, accounts payable, accounts receivable, and fixed asset accounting--learn how to complete key tasks, click by click. Complete your FI operations smoothly and efficiently! In this book, you'll learn about: a. Financial Accounting Basics See your finance workflows from end to end, and discover how key SAP S/4HANA simplifications impact financial accounting. Walk through standard processes such as order-to-cash and purchase-to-pay, the organizational structure, and how FI integrates with controlling. b. Tasks and Transactions Follow step-by-step instructions to complete your daily FI tasks in SAP S/4HANA, including period-end close and reporting. Learn to perform event-based

revenue recognition for project accounting in SAP S/4HANA Cloud. c. SAP GUI and SAP Fiori See your tasks illustrated with detailed screenshots for both the traditional SAP GUI interface and the corresponding SAP Fiori applications. Tap in to new functionality and an improved user experience! Highlights Include: 1) General ledger accounting 2) Fixed asset accounting 3) Accounts payable 4) Accounts receivable 5) Project accounting 6) Organizational structure 7) Period-end closing 8) Reporting 9) SAP GUI transactions 10) SAP Fiori apps

### **Configuring Financial Accounting in SAP ERP**

### **Configuring Sales and Distribution in SAP ERP**

This book, SAP FICO Black Book, brings to you a simple to the point non-technical jargon free discussion on SAP FICO along with comprehensive real life examples based on authors real life implementations. One of the first FICO books which cover business cycles rather than plain technical configuration. Targeting intermediate and advanced-level readers, this book discusses Implementation Tools; Enterprise Structure; New GL Configuration; Online Document Splitting; AR; AP; AA; Bank accounting; Integration of FI with Other Modules; Business Processes; Controlling; Cost Center Accounting; Product Costing; Material Ledger Configuration and Profit Center Accounting. The author has spent the last 10 years of his career acquiring this knowledge through the trial and error method. It covers the end user as well as technical configuration perspective. It can serve as a starting point for the people who want to comprehend how the financial and managerial accounting functions in an ERP. Most of the FICO text deals with technical configuration and throws little light on its functional implementation. This book is author s humble attempt to bridge the gap by providing real life scenarios along with technical details.

### **CO-PA in SAP S/4HANA Finance**

Dive into Cash Management and Liquidity Planning in SAP. Explore each area of S/4HANA Cash Management, including business functionality and configuration. Understand the many changes users need to be aware of in moving from SAP ERP Central Component (ECC) to S/4 HANA Cash Management. Find out what has changed, and what has stayed the same. Explore Bank Communication Management and Multi-Bank Connectivity. Identify the initial steps required for basic management of banks, house banks, and house bank accounts in S/4 HANA. Take a detailed look at cash operations. Learn more about One Exposure, the data storage structure for the data that feeds cash management reports. Get an overview of release 1809 and identify some of the new functionality delivered with SAP Cash Management powered by SAP HANA in release 1809. - Principle areas of Cash Management powered by S/4HANA - Comparison between ECC and SAP S/4HANA

functionality, including an overview of release 1809 - Deployment options and implementation steps - SAP Cash Management implementation tips and tricks

### **Configuring SAP ERP Financials and Controlling**

This book introduces business users, SAP support, and SAP consultants to the SAP In-House Cash (IHC) and In-House Bank (IHB) modules. Learn how to efficiently and effectively optimize payments in SAP. Walk through In-House Cash processes, key configuration, and transaction codes for corporate and shared service centers. Get a list of considerations you need to know before starting an IHC implementation and review required master data. Obtain tips and tricks on how to resolve specific errors and get a list of relevant transaction codes. By using a detailed example scenario, the author expertly brings readers up to speed on the fundamentals of SAP IHC and IHB. - SAP payment management fundamentals and tools - In-House Cash and In-House Bank functionality scenarios - Useful transaction codes and reports - Tips and tricks for resolving common errors

### **CONFIGURING SAP R/3 FI/CO: THE ESSENTIAL RESOURCE FOR CONFIGURING THE FINANCIAL AND CONTROLLING MODU**

This a Practical how to do book which guides you to become expert in End User, Implementation and Post Implementation Audit of SAP R/3 of FICO. The Functional Module of SAP R/3 FICO is the Backbone of all the other Modules. The FI and CO modules helps amplify functionality and features through application of customizing the system to meet accounting, financial, planning, and reporting needs in an organization. This book takes you through step by step guide on Implementation of SAP FICO module with Precise conceptual explanation and Guided Screenshots. Once the steps in implementation is finished it is necessary to ensure that all the activities are performed in accordance. As such the book provides in guided steps by step approach to verify the same which we call it as SAP FICO Audit Process. The post implementation or SAP FICO Audit Comprises of a widespread listing of important business process perils, along with commonly acknowledged information technology objectives and recommended regulators to meet the objectives. Finally, a set of step by step functions performed by End User exercise are provided for practice. The Book is Unique in the sense that it deals with all three types of training needed for a SAP FICO Professional. Without having a clear idea of Settings in FICO other Modules Learning is ineffective. The book provides Implementation guidance through Explanation of why each task is performed and the key tables in SAP associated with each step. What you will learn? 1. The Book Initially takes you through

Logistics Management which is the base of all Business Process and since almost everything comes under Logistics. 2. Further It Gives You Clear Understanding of ERP and ALL the SAP functionalities available in simple layman's Language. 3. Provides you with a virtual firm's SAP R/3 FICO Step by Step Full Implementation Guide. 4. Most of the Materials do not help you in implementation in a sequential method. This book carries you with a sequential step such as in a particular order. 5. The Book also helps you to practice exercise at end of almost every sessions. 6. Most of the tutorials that exist in online do not explain the concepts. 7. It guides you with End User Training in FICO. POST IMPLEMENTATION SAMPLE Control Objective Company codes employed in the system should be set to productive Control Description In case of post go-live actions, there are some configurations that must be turned on to replicate that the SAP system is active for use and to protect the data that has been transferred to the production system. In a normal SAP recommends, the functioning company codes should be marked as productive, as soon as the implementation happens. This configuration specifies and endorses the active status of the company code and by default would limit the unsanctioned changes, comprising data deletion in the production server. Risk Here the risk is mistaken deletion of master & transactional data, which will unfavorably influence the system reliability. Test Steps Here we check the global company code configuration to confirm if the appropriate company codes are marked as Productive. For This Follow Step 15.1.1. We can see that Company code B100 is not Productive as such to make it productive follow the steps in 15.1.2.

## **SAP Enterprise Structure (MM and related modules such as FI, Logistics, and SD) Concept and Configuration Guide - a Case Study**

### **Configuring Financial Accounting in SAP**

SAP is the world leader in Enterprise Resource Planning (ERP) software; of the software's modules, the FI (Finance) and CO (Controlling) are by far the most popular and are widely implemented. ## **First Steps in SAP Controlling (CO)**

### **Sap Fi**

This bestselling author demystifies the latest version of SAP Financial Accounting (FI) through an innovative and easy-to-understand Q & A format, using 440 + questions and over 180 illustrations and screenshots. The book explains the important concepts / terms used in FI, provides you with several consulting, configuration, and usage tips on a variety of application components within FI. Separate chapters on SAP FI Tables and SAP FI Transaction Codes will help you navigate this complex software. This book will be an invaluable guide to everyone in the SAP community: beginners, end-users, programmers, and trainers. Features: \* Features an easy-to-understand Q & A format with configuration / consulting / usage tips \* Includes screen-shots from the latest version of SAP ERP, separate chapters on SAP FI Transaction Codes and SAP FI Tables \* Uses over 450 questions, 200 screen shots and illustrations, 430 FI transactions, and 195 SAP FI tables to help master this complex software \* Includes companion files with FI templates, short cuts, and figures (including 4 color) from the book

## **Guide to SAP In-House Cash (IHC)**

SAP ERP modules are notoriously hard to configure and use effectively without a lot of practice and experience. But as SAP ERP Financial Accounting and Controlling: Configuration and Use Management shows, it doesn't have to be so difficult. The book takes a systematic approach that leads SAP Financial Accounting and Controlling (FICO) users step by step through configuring and using all the program's facets. This approach makes configuration complexities manageable. The book's author—SAP expert, trainer, and accountant Andrew Okungbowa—ensures that both you and your end users are up and

running quickly and confidently with FICO. He also provides sound and tested procedures that ensure your implementation works without error. SAP ERP Financial Accounting and Controlling: Configuration and Use Management is in fact the most comprehensive and easy-to-follow SAP FICO configuration book in the market. It incorporates a hands-on approach, with hundreds of screen shots and practical examples, that allows a person without prior configuration training to make SAP FICO ready for use in the enterprise. You'll find that you don't need to be a rocket scientist to grasp the concepts explained and apply them to your work—even when the finances are complicated, such as with the ins and outs of taxes, currency conversions, or special general ledger entries such as down payments or bills of exchange. Providing an in-depth coverage of both configuration and end user procedures, the book covers most aspects of the SAP FICO certification syllabus—SAP's view of the module's key tasks and procedures—including: Configuring and using the general ledger and accounts payable and receivable screens Configuring and completing closing procedures, asset accounting, and financial reporting Configuring global settings and enterprise variables Accounting for both profit and cost centers Creating a house bank Integrating FICO with other SAP modules Taking a jargon-free tone and providing an abundance of examples, Andrew Okungbowa provides a clear understanding of configuration techniques and the breadth of functionalities encompassed by SAP FICO. And as an accountant, Okungbowa understands the needs of end users as well as of those answering to the CIO.

### **SAP Revenue Accounting and Reporting and IFRS 15**

Implementing SAP® ERP Financials, an A-Z guide to configuring SAP Financials, is based on the latest version---SAP ERP (ECC6.0). Adopting a step-by-step approach, it guides the reader through each configuration step, using a hypothetical case-study (Project Everest) to give a feel of a real project implementation. Packed with lots of illustrations and screenshots for easy comprehension, this book is the most updated work on SAP Financials, and serves as an easy-to-use one-stop

reference for SAP consultants, end-users and students.

### **Sap Fico Covers Sap Ecc 6.0 Black Book**

### **SAP® ERP Financials and FICO Handbook**

Configure the FI and CO Modules to Meet All Your Business Requirements Configuring SAP R/3 FI/CO is the only book of its kind: a detailed, practical guide to configuring R/3's two most popular modules. Written by the experts responsible for R/3 configuration in a Fortune 200 company, it provides detailed instructions and examples for all the Financial and Controlling submodules—information that will help you make good on your company's sizable investment. Coverage includes: FI Enterprise Structure General Ledger Substitutions and Validations Automatic account assignments Accounts Payable Accounts Receivable Credit Management Lockbox CO Enterprise Structure Cost Element Accounting Cost Center Accounting Internal Orders CO settlement Profitability Analysis (CO-PA) Profit Center Accounting Investment Management Visit this book's companion Web site at [www.virtuosollc.com](http://www.virtuosollc.com) for additional coverage of FI/CO configuration techniques.

### **A Practical Guide to SAP S/4HANA Financial Accounting**

Market\_Desc: Consultants, IS managers, and project team members for FI/CO systems. Also, end users who have been left to maintain a system after a project's conclusion. Special Features: " Only book on the market for SAP team members who need to configure and customize the FI/CO module. Covers configuration issues in far more depth than other books, which focus on the theory of FI/CO and functionality from only an end-user perspective." The book's approach is ideally suited to the needs of the audience. The emphasis is on teaching people how to configure the system to deliver functionality. The authors use case studies and detailed tables to explore the variations in setup depending on the environment the module is being used in." FI and CO are the most widely used of the SAP modules, both domestically and abroad. About The Book: SAP is the leading ERP (Enterprise Resource Planning) product in the market, with more than 30 percent market share. FI/CO, the Financial and Controlling modules, are the most popular modules in the package and are used by thousands of SAP customers in various industries. (20,000 companies have installed SAP; more than half have the financial package). Configuring and customizing the SAP modules is still one of the most expensive and time-consuming parts of the implementation, because consultants are expensive and support from SAP is slow. This book is valid for both versions 3.x and 4.x of R/3.
