“You’ll never walk again.” California Senator Omer Rains had been a politician on the global stage, a power-broking lawyer of A-list celebrities, and conqueror of some of the highest mountains in the world. But when a paralyzing brain aneurysm and stroke hit him at age 61, he became more helpless than a small child. In *Back to the Summit*, Rains takes readers on a courageous journey toward recovery, both physical and spiritual, as he reflects on the people, events, and American history that shaped his life and gave him the strength to dare to walk again. Every flashback to the past offers insight into the philosophy that once saved his life and now defines his every action: “Get up from every fall, no matter how great or far, and continue to live life fully.” Those who have suffered physical trauma may find hope in his story; their loved ones may gain insight and understanding. And any reader who has ever faced a mountain of a setback will be inspired to keep on fighting to live again. *Back to the Summit* takes us on a journey toward physical and spiritual recovery that reminds us that anything is possible.

The Ford Bronco is a sport utility vehicle that was produced from 1966 to 1996, with five distinct generations. The Bronco permanently entered American popular culture on June 17, 1994, when a white 1992 model owned and driven by Al Cowlings with O. J. Simpson, who was wanted for the murders of his ex-wife and her friend, attempted to elude the Los Angeles Police Department in a low-speed chase, which was nationally televised and viewed by millions nationwide. This is complete story from conception through discontinuation in 1996, told by historian (and well-known "Ford guy") Paul McLaughlin utilizing his large collection of photographs, brochures, ads and other promotional material. Follow the Bronco's various incarnations from a small sport utility vehicle of the 1960s and 1970s into the larger full-size Bronco of the 1980s and 1990s, special models like the "Bill Stroppe Edition", "Eddie Bauer Specials", the Bronco II and other juicy tidbits like the Bronco concept vehicle that Ford took on the car show circuit in 2005 (which got Bronco enthusiasts so excited that Ford was going to add a Bronco vehicle to their lineup once again). Also covered are the Broncos that were raced in off-road

desert racing, Bronco toys and other collectibles, specification sheets, production numbers, and other interesting facts. Finally, a book for all Bronco enthusiasts!

FOREWORD BY LEGENDARY DUKE BASKETBALL COACH MIKE KRZYZEWSKI On the Edge is an engaging leadership manual that provides concrete insights garnered from various extreme environments ranging from Mt Everest to the South Pole. By reflecting on the lessons learned from her various expeditions, author Alison Levine makes the case that the leadership principles that apply in extreme adventure sport also apply in today's extreme business environments. Both settings require you to be able to make crucial decisions on the spot when the conditions around you are far from perfect. Your survival -and the survival of your team-depend on it. Featuring a Foreword from legendary Duke University basketball coach Mike Krzyzewski who knows all about leadership, On the Edge provides a framework to help people scale whatever big peaks they aspire to climb-be they literal or figurative-by offering practical, humorous, and often unorthodox advice about how to grow as a leader.
