The Arithmetic Teacher

Using a rich array of archival and quantitative sources, and oral testimony from ex-students across Canada, Axelrod explores the characteristics and significance of university life during a trying decade. He describes who went to university, what they were taught, how they amused themselves, how they responded to the pressing political issues of the day, and what became of them after graduation. Axelrod argues that these students shared the aspirations of middle-class communities elsewhere. Dreading the prospect of downward social mobility, they craved the status a university degree and professional credentials might produce. Accordingly, they forged an associational life on campus that challenged the control of paternalistic authorities, perpetuated the values of middle-class culture, and helped them cope with the stresses of the time. Women composed almost one-quarter of the student population -- and faced discrimination inside and outside the classroom. How they coped with this, how they adapted their own expectations, and how they contributed to campus and community culture are extensively discussed. Through the prism of the student experience, Making a Middle Class furnishes fresh insights into the social history of higher education, the history of youth, the history of the middle class, and the history of the Depression.

Highly Recommended

This student text book is aimed at Pre-Intermediate A2 level learners. The aim of the series is to give students the chance to expand their vocabulary in different areas. Each unit deals with a common vocabulary topic; the vocabulary is taught through a variety of exercises with lots of illustrations to make them more lively and interesting. This series can be used as Time Fillers; when teachers have some extra time and they need something to do to help students revise what they have already been taught. Alternatively, it can also be used to help weak students enrich their vocabulary in various common topics.

Practice Exam Papers

. . . this volume is a very good and important addition to economic growth and development. On the basis of authority, the selection is well-balanced. . . This book should be a mandatory textbook for graduate students in development economics, and essential reading for all policy-makers. Voxi Heinrich Amavilah, Progress in Development Studies This valuable and engaging new book bears eloquent testimony to A.P. Thirlwall's substantial contribution to economics over the last 40 years. The volume does not attempt to provide a comprehensive review of such a prolific figure, but rather demonstrates the considerable influence that his work on economic theory has had on his contemporaries, and the profession as a whole. From his early pioneering research in regional and labour economics to his more recent exploration of growth and development economics, leading experts in the field bear witness to the significant role he has played in the evolution of the discipline. In addressing some of the most pivotal aspects of his career, the contributors cover a range of topics including Thirlwall's Law, the application of Keynesian macroeconomic approaches, the General Theory within open economies, the connection between short-run cycles and long-run growth, endogenous growth theory, the Stability and Growth Pact, as well as broader development issues and problems. In championing Thirlwall's challenging work, this volume provides a lively and comprehensive account of some of the most important areas of economics today. This book will prove an essential read for academics and policy makers alike who are interested in trade, growth and development economics.

Childhood Education in the Church

This concise, practical text-workbook provides extensive real-world practice with the universal medical insurance claim form, the HCFA 1500. Includes flow charts, claims processing forms, and medical reports. Coding and billing content is based on industry practice and addresses electronic claims and a variety of compliance issues. The text provides a brief introduction to MediSoft Advanced Patient Billing Software.

A Remarkable Collection of Babylonian Mathematical Texts

Cheating in School is the first book to present the research on cheating in a clear and accessible way and provide practical advice and insights for educators, school administrators, and the average lay person. Defines the problems surrounding cheating in schools and proposes solutions that can be applied in all educational settings, from elementary schools to post-secondary institutions. Addresses pressing questions such as "Why shouldn't students cheat if it gets them good grades?" and "What are parents, teachers, businesses, and the government doing to unintentionally persuade today's student to cheat their way through school?" Describes short and long term deterrents that educators can use to foster academic integrity and make honesty more profitable than cheating. Outlines tactics and strategies for educators, administrators, school boards, and parents to advance a new movement of academic integrity instead of dishonesty.

Our national language, and the culture from which it has formed, is the rightful inheritance of all English-speaking people. It deserves to be taught with knowledge and respect. English is now spoken, also, by more than 500 million people around the world. They need the opportunity to learn to speak and write it confidently, and correctly. Grammar provides a language to talk about language. As a mechanic needs naming words for the parts of an engine, so a student needs naming words for the components of speech and writing. This practical book provides all who learn or teach Grammar with these skills in a clear step-by-step process. It provides teachers with an armoury of learning strategies to use at all levels. Grammar should be fun to teach and fun to learn.

An IELTS preparation course in two levels, Intermediate for students needing a band 5.0 - 6.0, Advanced for students aiming for Band 6.0 - 7.0.

Making a Middle Class

face2face is the flexible, easy-to-teach General English course that helps adults and young adults to speak and listen with confidence. face2face is informed by Cambridge English Corpus and its vocabulary syllabus has been mapped to the English Vocabulary Profile, meaning students learn the language they really need at each CEFR level. The course improves students' listening skills by drawing their attention to the elements of spoken English that are difficult to understand. The Class Audio CDs include complete recordings for the listening activities in the Student's Book.

The AOPA Pilot

Early training of children in the basic truths of Christianity has become an increasingly high priority in Christian circles. To satisfy the demand for up-to-date material on the subject, editors Robert Clark, Joanne Brubaker, and Roy Zuck have revised and expanded *Childhood Education in the Church*. Numerous revisions and several new chapters (some by new authors) have been added, including essays on "Teaching Exceptional Children" and "The Role of Home Schooling in Childhood Education." Written by a wide variety of experts in Christian education, this volume is designed for use in teacher training classes and for professional training in Bible colleges and seminaries. Each of the thirty-five articles explores a specific area of importance to childhood education. Together they present a complete picture of Christian education of children. - back of book.
