Rantoul and the former Chanute Air Force Base are inseparably intertwined as primary players in a single historical narrative. Rantoul was first founded as an agriculturally based community in 1848 near an area known as Mink Grove. The settlement boomed with the coming of the Illinois Central Railroad in 1854; a railroad championed by the town's namesake, Robert Rantoul Jr. Disaster followed in 1899 and again in 1901 with devastating fires. Then, in 1917, a U.S. Army flying field was built on the outskirts of Rantoul. Named after the aviation pioneer Octave Chanute, Chanute Field, later Chanute Air Force Base, became a premier technical training facility. A mutually beneficial relationship quickly developed between

these civilian and military establishments that would last for over 75 years. Chanutte Air Force Base closed in 1993, ushering in yet another new era for the village of Rantoul.

Ten essays discuss federal democracy, the form of government of the United States. The first essay discusses the origins of American federalism. The second examines why we have a federal system, the functions federalism serves, and the consequences of federalism for the American political system. Federalism in the Constitution and constitutional law are treated in the third essay. The importance of cultural pluralism in American life and the role of American federalism in supporting pluralism are the foci of the fourth essay. The roles that the local community, the states, and political parties play in the federal system are examined in essays 5, 6, and 7, respectively. State, local, and professional roles in citizenship education are discussed in the eighth essay. The ninth essay explores how high school U.S. history and government textbooks approach federalism. The concluding essay describes resources on federalism that can be used in curriculum development at the secondary and college levels. Many of the essays are followed by topics for further study and suggested readings for teachers. (RM)

story is told mainly through the hundreds of period photos and in the words of the main protagonists themselves -- the incomparable racers Percy Tait, and Gary Nixon in the USA, the racing team including Les Williams and Arthur Jakeman for example, and also the privateers 'special' builders such as David Kirby, Rob Prior and Mick Hemmings amongst many others. This is a book full of insight into those heady days of racing success for the little 500 unit twin. A fascinating book which will be welcomed not just by Triumph enthusiasts but also by all those interested in motorcycle racing during the 1960s. Complete with a great many photos, and beautifully presented in colour where possible, this is a real gem.
