Sweet Sour

The aim of this book is to demonstrate that, in a representation-based model, the phonological organization of speech sounds within a word is reducible to the licensing properties of nuclei with respect to structurally defined complexities which pose varying demands on the licenser. It is assumed that the primitive licensing relation is that between a nucleus and its onset (O N). There are two main types of complexities concerning the onset position. Substantive complexity is an important aspect of phonological organisation at the melodic level, while the syllabic configurations in which the onset may be found are referred to under the heading of formal complexity. At the melodic level, complexity is defined in terms of the number of privative primes called elements. The asymmetries in the subsegmental representations of consonants and vowels are shown to play a pivotal role in understanding a number of phenomena, such as typological patterns, markedness effects, phonological processes, segmental inventories, and, what is most important, the model allows us to see a direct connection between phonological representations and processes. For example, the deletion of [g] in Welsh initial mutations is strictly related to the fact that the prime which crucially defines this object also happens to be the target of Soft Mutation. The complexity at the syllabic level is defined in terms of formal onset configurations called governing relations, of which some are easier to license than others. The formal complexity scale is not rerankable, and corresponds directly to the markedness of syllabic types. Since each formal configuration requires licensing from the following nucleus, syllable typology can be directly derived from the licensing strength of nuclei. The interaction between the higher prosodic organisation, for example, the level of the foot, and the syllabic level is also easily expressible in this model because higher prosody is built on nuclei. Therefore, prosody may tamper with the status of nuclei as licensers by deeming some of them as prosodically weaker than others, thus producing a non-rerankable scale of nuclear licensers (a " P). The inclusion of the empty nucleus as a possible licenser allows us to unify the scale of relatively marked contexts in segmental phenomena, and also to account for such problems as extrasyllabicity, complex clusters, super heavy rhymes, and other exceptional strings. The role of nuclei as licensers in unifying various levels of phonological representation from melody to word structure is unquestionable.

There are other areas of phonological theory which can be expressed in this model. These include the role of nuclear strength scales in register switches, dialectal variation, historical development, language acquisition, and the interaction between phonology and morphology.

A Modern Way to Eat

An account of people in formerly Communist countries holding fast to their former lives.

Death Comes in Yellow

Many of the customs and traditions found herein are extinct even in today's Poland. World wars, massive immigration, the loss of the oral tradition, urbanization and politics have changed the face of a once agrarian people and their accompanying life style. In the U.S., the desire for membership within the "melting pot," marriages outside one's ethnic group, movement to the suburbs away from the "old" communities where customs and traditions were once strong, further weakened the link. Although the purpose and meaning may have been lost and forgotten, the oczepiny ceremony (the unveiling) is still the mainstay of almost every wedding where the bride declares Polish heritage.

Water for Elephants

Shantaram introduced millions of readers to a cast of unforgettable characters in the hidden heart of Bombay through Lin, an Australian fugitive, working as a passport forger for a branch of the Bombay mafia. In *The Mountain Shadow*, the long awaited sequel, Lin must find his way in a Bombay run by a different generation of mafia dons, playing by a different set of rules. It has been two years since the events in *Shantaram*, and since Lin lost two people he had come to love: his father figure, Khaderbhai, and his soul mate, Karla, married to a handsome Indian media tycoon. Lin returns from a smuggling trip to a city that seems to have changed too much, too soon. Many of his old friends are long gone, the new mafia leadership has become entangled in increasingly violent and dangerous intrigues, and a fabled holy man challenges everything that Lin thought he'd learned about love and life. But Lin can't leave the Island City: Karla, and a fatal promise, won't let him go.

Henri Tajfel: Explorer of Identity and Difference

Anthony Bourdain meets Kapuściński in this chilling look from within the kitchen at the appetites of five of the twentieth century's most infamous dictators, by the

acclaimed author of *Dancing Bears*. What was Pol Pot eating while two million Cambodians were dying of hunger? Did Idi Amin really eat human flesh? And why was Fidel Castro obsessed with one particular cow? Traveling across four continents, from the ruins of Iraq to the savannahs of Kenya, Witold Szablowski tracked down the personal chefs of five dictators known for the oppression and massacre of their own citizens—Iraq's Saddam Hussein, Uganda's Idi Amin, Albania's Enver Hoxha, Cuba's Fidel Castro, and Cambodia's Pol Pot—and listened to their stories over sweet-and-sour soup, goat-meat pilaf, bottles of rum, and games of gin rummy. Dishy, deliciously readable, and dead serious, *How to Feed a Dictator* provides a knife's-edge view of life under tyranny.

The Inkheart Trilogy

Examines Polish and Jewish perceptions of the rapprochement culminating in Polish national insurrection against Czarist Russia in 1863.

Face

Friends of Liberty tells the remarkable story of three men whose lives were braided together by issues of liberty and race that fueled revolutions across two continents. Thomas Jefferson wrote the founding documents of the United States. Thaddeus Kosciuszko was a hero of the American Revolution and later led a spectacular but failed uprising in Poland, his homeland. Agrippa Hull, a freeborn black New Englander, volunteered at eighteen to join the Continental Army. During the Revolution, Hull served Kosciuszko as an orderly, and the two became fast friends. Kosciuszko's abhorrence of bondage shaped his thinking about the oppression in his own land. When Kosciuszko returned to America in the 1790s, bearing the wounds of his own failed revolution, he and Jefferson forged an intense friendship based on their shared dreams for the global expansion of human freedom. They sealed their bond with a blood compact whereby Jefferson would liberate his slaves upon Kosciuszko's death. But Jefferson died without fulfilling the promise he had made to Kosciuszko—and to a fledgling nation founded on the principle of liberty and justice for all.

Iconic Power

An exciting collection of poems by Wislawa Szymborska. When *Here* was published in Poland, reviewers marveled, "How is it that she keeps getting better?" These twenty-seven poems, as rendered by prize-winning translators Clare Cavanagh and Stanislaw Baranczak, are among her greatest ever. Whether writing about her teenage self, microscopic creatures, or the upsides to living on Earth, she remains a virtuoso of form, line, and thought. From the title poem: I can't speak for elsewhere, but here on Earth we've got a fair supply of everything. Here we manufacture chairs and sorrows, scissors, tenderness, transistors, violins, teacups, dams, and quips . . . Like nowhere else, or almost nowhere, you're given your own torso here, equipped with the accessories required for adding your own children to the rest. Not to mention arms, legs, and astonished head.

Polityka

This book explores the political imagination of Eastern Europe in the 1830s and 1840s, when Polish, Russian, and Ukrainian intellectuals came to identify themselves as belonging to communities known as nations or nationalities. Bilenky approaches this topic from a transnational perspective, revealing the ways in which modern Russian, Polish, and Ukrainian nationalities were formed and refashioned through the challenges they presented to one another, both as neighboring communities and as minorities within a given community. Further, all three nations defined themselves as a result of their interactions with the Russian and Austrian empires. Fueled by the Romantic search for national roots, they developed a number of separate yet often overlapping and inclusive senses of national identity, thereby producing myriad versions of Russianness, Polishness, and Ukrainianness.

"Death Comes in Yellow" presents the history of one slave labor camp in order to shed light on all aspects of the slave labor camps established in Poland under German occupation. Hasag-Skarzysko was one of hundreds of camps scattered throughout occupied Poland. They were distinguished by size, the nationality of the prisoners, their location, the date of their establishment, and the authority in charge. The large number of labor camps reflected the German policy of exploiting the work forces of the occupied countries. These camps were part of a Europe-wide system of forced labor. The first part of this volume reviews the external history of

the camp. The second section, which studies the internal workings of the camp, is quite different in approach and includes an analysis of prisoner society and a moving description of the individual prisoner's struggle to survive.

The Athenaeum

On a freezing January in 1992, five teenage girls crowded into a car. By the end of

the night, only four of them were alive. The fifth had been tortured and mutilated nearly beyond recognition. Her name was Shanda Sharer; her age-twelve. When the people of Madison, Indiana heard that a brutal murder had been committed in their midst, they were stunned. Then the story became even more bizarre. The four accused murderers were all girls under the age of eighteen: Melinda Loveless, Laurle Tackett, Hope Rippey, and Toni Lawrence. Here, for the first time, veteran true crime journalist Aphrodite Jones reveals the shocking truth behind the most savage crime in Indiana history—a tragic story of twisted love and insane jealousy, lesbianism, brutal child abuse, and sadistic ritual killing in small-town America and of the young innocent who paid the ultimate price.

This book offers a biographical account of Henri Tajfel, one of the most influential European social psychologists of the twentieth century, offering unique insights into his ground-breaking work in the areas of social perception, social identity and intergroup relations. The author, Rupert Brown, paints a vivid and personal portrait of Tajfel's life, his academic career and its significance to social psychology, and the key ideas he developed. It traces Tajfel's life from his birth in Poland just after the end of World War I, his time as a prisoner-of-war in World War II, his work with Jewish orphans and other displaced persons after that war, and thence to his short but glittering academic career as a social psychologist. Based on a range of sources including interviews, archival material, correspondence, photographs, and scholarly output, Brown expertly weaves together Tajfel's personal narrative with his evolving intellectual interests and major scientific discoveries. Following a chronological structure with each chapter dedicated to a significant transition period in Tajfel's life, the book ends with an appraisal of two of his principal posthumous legacies: the European Association of Social Psychology, a project always close to Tajfel's heart and for which he worked tirelessly; and the 'social identity approach' to social psychology initiated by Tajfel over forty years ago and now one of the discipline's most important perspectives. This is fascinating reading for students, established scholars, and anyone interested in social psychology and the life and lasting contribution of this celebrated scholar.

When the Lumière brothers introduced the motion picture in 1895, Poland was a divided and suffering nation—yet Polish artists found their way into the new world of cinema. Boleslaw Matuszewski created his first documentary films in 1896, and Poland's first movie house was established in 1908. Despite war and repression, Polish cinema continued to grow and to reach for artistic heights. The twentieth century closed with new challenges, but a new generation of Polish filmmakers stood ready to meet them. Here is a complete history of the Polish cinema through the end of the twentieth century, with special attention to political and economic contexts.

When the Aleppian Jewish community migrated from the ancient city of Aleppo in historic Syria and settled in New York and Latin American cities in the early 20th century, it brought its rich cuisine and vibrant culture. Most Syrian recipes and traditions, however, were not written down and existed only in the minds of older generations. Poopa Dweck, a first generation Syrian-Jewish American, has devoted much of her life to preserving and celebrating her community's centuries-old legacy. Dweck relates the history and culture of her community through its extraordinary cuisine, offering more than 180 exciting ethnic recipes with tantalizing photos and describing the unique customs that the Aleppian Jewish community observes during holidays and lifecycle events. Among the irresistible recipes are: •Bazargan-Tangy Tamarind Bulgur Salad •Shurbat Addes-Hearty Red Lentil Soup with Garlic and Coriander •Kibbeh-Stuffed Syrian Meatballs with Ground Rice •Samak b'Batata-Baked Middle Eastern Whole Fish with Potatoes •Sambousak-Buttery Cheese-Filled Sesame Pastries •Eras bi'Ajweh-Date-Filled Crescents •Chai Na'na-Refreshing Mint Tea Like mainstream Middle Eastern cuisines, Aleppian Jewish dishes are alive with flavor and healthful ingredients-featuring whole grains, vegetables, legumes, and olive oil-but with their own distinct cultural influences. In Aromas of Aleppo, cooks will discover the best of Poopa Dweck's recipes, which gracefully combine Mediterranean and Levantine influences, and range from small delights (or maza) to daily meals and regal holiday feasts-such as the twelve-course Passover seder.
