Neurosurgical Management of Aneurysmal Subarachnoid Haemorrhage HedgeWitchBefore I Forget UNDERSTANDING HUMAN SEXUALITY

Neurosurgical Management of Aneurysmal Subarachnoid Haemorrhage

Though sexuality is an important subject matter that should be taught in homes and in the church, it has been neglected and treated as inconsequential. Young and old alike look at sex as a taboo. The church and the home should be the most appropriate forums where sexuality could be openly discussed, but to the contrary, the message we have received from the church and the home is that sex is unholy and shouldn't be discussed. These key institutions have little or nothing to discuss about sex. This is especially tragic because the believers who have faith in God, who created sex and established its proper parameters, should be able to speak more intelligibly and confidently about sex than anyone else. Yet the community of believers is silent in the public forum in matters relating to sexuality whether because of embarrassment, confusion, timidity or a sense that the subject of sex is either too personal or not sufficiently "spiritual" for church to address publicly. Mr. Ng'ang'a has addressed this subject openly and with ardent scriptural instruction. Understanding Human Sexuality is helpful to married couples and curious young people who have many questions

about sex. It is also an instruction manual for parents in guiding their curious children on the subject.

HedgeWitch

From starry night rituals to garden toad totems, discover the enchanting craft of the HedgeWitch. Transform your life with a little help from nature! Working in harmony with the earth's energy is the heart of the free-spirited, simple garden magick known as HedgeWitchery. This guidebook from the immensely popular Silver RavenWolf has everything a new HedgeWitch needs to connect in a personal way with nature's creative, life-affirming energy and use it in magick and spellwork. HedgeWitch features a fourteen-lesson, hands-on guide that you complete at your own pace, interacting with different aspects of nature in simple yet life-changing ways. The fourteen rituals, which can be done alone or with a group, culminate in an inspiring dedication ceremony. Along with a wealth of helpful hints on using HedgeWitch magick for love, health, and beauty, this guide presents tips and recipes for soap making, tea-leaf reading, butterfly garden magick, organically growing your own herbs, and a variety of other ways to use HedgeWitchery in your hearth, home, and garden. Praise for Silver RavenWolf: "RavenWolf's prose is delightful and inviting a wonderful guidebook for readers who are serious about beginning a Wiccan spiritual journey."—Publishers Weekly

Before I Forget

Gavin Morris was born in New Zealand and spent most of his life at sea. He traveled around the world as a lot of his time were spent on ships sailing the South Pacific Islands and Australia. He served on all kinds of ships and yachts, spent some time ashore, and went back to sea again to become an officer and a captain. His adventures include surviving the biggest storm ever in the South Pacific and sailing on his own sixty-two-foot yacht called Waitane. When the shipping company he worked for closed down, he, along with his American wife, moved to San Diego. They still live there along with two pug dogs, and he still does occasional yacht charters around San Diego harbour.

UNDERSTANDING HUMAN SEXUALITY

The small neck of the aneurysm afforded an easy surgical attack. An ordinary flat silver clip was placed over the sac and tightly compressed obliterated it completely. The clip was flush with the wall of the carotid artery. The sac, lateral to the silver clip, was then picked up with the forceps and thrombosed by the electrocautery. Walter Dandy reporting his successful operation of a posterior communicating aneurysm on March 23, 1937. Walter Dandy's patient left the hospital in good health 2 weeks later, and from his report one may gain the impression that the operation was an easy task. Despite continuous developments during the following decades, it was not until the introduction of the operating microscope and microsurgical techniques that surgical treatment was generally accepted. During the microsurgical era

surgical results have continued to improve due to diagnostical, neuroanaesthesiological, and microsurgical refinements, and improved neurointensive care. Endovascular obliteration has become an important treatment alternative but this has not been included in this particular volume. The purpose of the present supplement of the ACTA NEUROCHIRURGICA is to review some of the elements in the neurosurgical management of patients with aneurysmal subarachnoid haemorrhage that are important for a successful outcome. Professor Helge Nornes has been a major force in the development of new techniques and research strategies in this area for a number of years and has recently retired from the National Hospital in Oslo.
