ESSENTIALS OF NEGOTIATION, 4e is a short paperback derivative from the main text, NEGOTIATION, 5e. It explores the major concepts and theories of the psychology of bargaining and negotiation, and the dynamics of interpersonal and inter-group conflict and its resolution. Fourteen of the 20 chapters from the main text have been included (about half have been shortened by about 1/3) for this volume. Chapters are shortened by removing more 'academic' material and some of the boxes. This effectively leaves the message and theories of negotiation intact.

"Visualizing Technology is always current and always engaging! With the highly visual design, students won't find pages of long paragraphs. Instead, they'll find a text written the way they are hardwired to think, with smaller sections of text that use images creatively for easier understanding and chapters that are organized as web articles with catchy headlines. Visualizing Technology 8e continues to provide a hands-on approach to learning computer concepts, where students learn a little and then apply what they are learning in a project, through a simulation, or by watching a Viz Clip video to dive deeper. Each chapter has two How-To projects, focused on Digital Literacy and Essential Job Skills, so that students are gaining the skills needed for professional and personal success. Within the etext, students are engaged through interactive surveys, currency updates, videos, IT Simulations, interactives, fun study tools, and flashcards with immediate feedback. Ethical Obligations and Decision-Making in Accounting gives students a robust ethical framework that is crucial for accountants in the post-Enron era. Incorporating the principles of the AICPA code and other systems of ethics, Mintz and Morris show accounting students how a commitment to ethics can enable accounting professionals to meet their ethical obligations both to investors and creditors. No other book so comprehensively examines the elements of the financial reporting system - including the ethics of the internal control environment and the effectiveness of board of director and audit committee oversight - that determine the ethical standard of the accounting process.

Greg Marshall and Mark Johnston (both of Rollins College) have taken great effort to represent marketing management the way it is actually practiced in successful organizations today. Given the dramatic changes in the field of marketing, it is a sure bet that the job of leading marketing manager's contributions to the organization and its customers, clients, and partners has changed at the same level. Yet, no marketing management book on the market today fully and effectively captures and communicates to students how marketing management is really practiced in the 21st century business world. Clearly, it is time for an updated approach to teaching and learning within the field. *Marketing Management 3e* is designed to fulfill this need.

Designed as both a practical clinical reference and a comprehensive classroom text, the second edition of Physical Dysfunction Practice Skills for the Occupational Therapy Assistant meets the need of OTA programs for a focused, easy-to-use approach to physical dysfunction. This new edition is thoroughly updated and expanded to include areas such as work, habits of health and wellness, leisure and social participation, and activities and occupations of daily living. Special boxes provide snapshots of real-life situations and solutions. Case studies threaded throughout the chapters apply key concepts in a real-life setting. Selected Reading Guide Questions and Summaries help students assess and evaluate the material they have learned. Evidence-based content, including clinical trials and outcome studies, shows the evidentiary basis for OTA practice. Key Terms, and Chapter Objectives lay out essential information in each chapter. A client-centered approach to treatment and maintenance of health allows the OTA to include the client when making decisions about planning and treatment. Three new chapters cover information on Work, Habits of Health and Wellness, and Leisure and Social Participation. Expanded to reflect emerging practices and the changing field.

composition of structures allow them to perform their functions. The 9th Edition features new exercises and questions that help students learn and use anatomical language and interpret real-world medical images while learning basic human anatomy. Building on the functional anatomy approach of previous editions, selected illustrated tables have been enhanced to tell a more cohesive and logical "story" of human anatomy. In the eText edition, dozens of embedded videos and animations help students visualize, manage, and master anatomical terms and structures, along with instant cross-referencing that eliminates the need to flip pages to connect concepts across body systems. Also available as a Pearson eText or packaged with Mastering A&P: Pearson eText is a simple-to-use, mobile-optimized, personalized reading experience that can be adopted on its own as the main course material. It lets students highlight, take notes, and review key vocabulary all in one place, even when offline. Our aim in this new text has been to respond to the temper of the times without losing the authority that comes with multiple authorship by experts, and equally without diminishing, we hope, the seriousness of the scientific approach to the problems of psychology. This new book is so much more than a revision of the old that we have given it a new title. In it we have turned the old book hind part to, beginning with the consideration of conduct and ending with the treatment of perception. The book is considerably enlarged, with some new chapters and some new collaborators. As was the case in the first book, these expert authors have formulated in the first instance the content of the chapters, but thereafter we as editors have freely exercised our right to alter their texts in the interests of unity in the whole."
