In *The 7 Habits of Happy Kids*, Sean Covey uses beautifully illustrated stories to bring his family's successful philosophy to the youngest child. For the Seven Oaks friends, there is always something to do. Whether they're singing along with Pokey Porcupine's harmonica or playing soccer with Jumper Rabbit, everyone is having fun and learning all sorts of things. These seven stories show how practicing the 7 Habits makes this possible for the whole Seven Oaks Community. From learning how to take charge of their own lives to discovering how balance is best, the Seven Oaks friends have tons of adventures and find out how each and every kid can be a happy kid!

The Success Principles for Teens

Many people are only concerned with what happens today or perhaps a few months down the road. At best, they may be concerned with what happens after retirement. But what about life after death? Are you prepared for it? Although your physical body will die someday, your spirit `A DISPLAY: none"`
`onclick=ToggleCopy.actionToTake(this.id)More/a DIV id=copyToToggle0` will continue to live for eternity. Whether your spirit resides in heaven or in hell depends on the choices you have made. In this book, best-selling author Joyce Meyer outlines God's plan for salvation so you can make the right decision. /div

You'll Ever Make, now updated to include new information about technology and how it affects teens today. In *The 6 Most Important Decisions You'll Ever Make*, Sean Covey gives teens the advice they need to make informed decisions that will lead to long-term success and happiness. He shares guidance on the big issues in their lives, such as how to succeed in school, make good friends, get along with parents, wisely handle dating and sex, avoid or overcome addictions, build self-esteem, and much more. In this valuable workbook, Covey allows readers to practice and learn how to actually make those decisions with enhancing stories, exercises, advice, and practical wisdom that can be applied to real life. It also encourages teenagers to talk to their parents, their friends, and their role models about these important issues. This newly revised edition includes new material for the digital age and how social media and technology affects the 6 Decisions in today's world.

The 7 Habits of Highly Effective Teens

The hardest choices are also the most consequential. So why do we know so little about how to get them right? Big, life-altering decisions matter so much more than the decisions we make every day, and they're also the most difficult: where to live, whom to marry, what to believe, whether to start a company, how to end a war. There's no one-size-fits-all approach for addressing these kinds of conundrums. Steven Johnson's classic *Where Good Ideas Come From* inspired creative people all over the world with new ways of thinking about innovation. In *Farsighted*, he

uncovers powerful tools for honing the important skill of complex decision-making. While you can't model a once-in-a-lifetime choice, you can model the deliberative tactics of expert decision-makers. These experts aren't just the master strategists running major companies or negotiating high-level diplomacy. They're the novelists who draw out the complexity of their characters' inner lives, the city officials who secure long-term water supplies, and the scientists who reckon with future challenges most of us haven't even imagined. The smartest decision-makers don't go with their guts. Their success relies on having a future-oriented approach and the ability to consider all their options in a creative, productive way. Through compelling stories that reveal surprising insights, Johnson explains how we can most effectively approach the choices that can chart the course of a life, an organization, or a civilization. Farsighted will help you imagine your possible futures and appreciate the subtle intelligence of the choices that shaped our broader social history.

Thinking, Fast and Slow

Astrophysicist and author Mario Livio investigates perhaps the most human of all our characteristics—curiosity—in this “lively, expert, and definitely not dumbed-down account” (Kirkus Reviews) as he explores our innate desire to know why. Experiments demonstrate that people are more distracted when they overhear a phone conversation—where they can know only one side of the dialogue—than when they overhear two people talking and know both sides. Why does half a conversation make us more curious than a whole conversation? “Have you ever wondered why we wonder why? Mario Livio has, and he takes you on a fascinating quest to understand the origin and mechanisms of our curiosity. I thoroughly recommend

it.” (Adam Riess, Nobel Prize Winner in Physics, 2011). Curiosity is not only at the heart of mystery and suspense novels, it is also essential to other creative endeavors, from painting to sculpture to music. It is the principal driver of basic scientific research. Even so, there is still no definitive scientific consensus about why we humans are so curious, or about the mechanisms in our brain that are responsible for curiosity. In the ever-fascinating *Why?* Livio interviewed scientists in several fields to explore the nature of curiosity. He examined the lives of two of history’s most curious geniuses, Leonardo da Vinci and Richard Feynman. He also talked to people with boundless curiosity: a superstar rock guitarist who is also an astrophysicist; an astronaut with degrees in computer science, biology, literature, and medicine. What drives these people to be curious about so many subjects? An astrophysicist who has written about mathematics, biology, and now psychology and neuroscience, Livio has firsthand knowledge of his subject which he explores in a lucid, entertaining way that will captivate anyone who is curious about curiosity.

This unsettling and illuminating history reveals how Germany's fractured republic gave way to the Third Reich, from the formation of the Nazi party to the rise of Hitler. Amid the ravages of economic depression, Germans in the early 1930s were pulled to political extremes both left and right. Then, in the spring of 1933, Germany turned itself inside out, from a deeply divided republic into a one-party dictatorship. In *Hitler's First Hundred Days*, award-winning historian Peter Fritzsche offers a probing account of the pivotal moments when the majority of Germans seemed, all at once, to join the Nazis to construct the Third Reich. Fritzsche examines the events of the period -- the elections and mass arrests, the bonfires and gunfire, the patriotic rallies and anti-Jewish boycotts -- to understand both the terrifying power the National Socialists exerted over ordinary Germans and the powerful appeal of the new era they promised. *Hitler's First Hundred Days* is the chilling story of the beginning of the end, when one hundred days inaugurated a new thousand-year Reich.

Manager and New York's work-advice columnist.

There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say.

Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Advance praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide "Clear and concise in its advice and expansive in its scope, Ask a Manager is the book I wish I'd had in my desk drawer when I was starting out (or even, let's be honest, fifteen years in)."—Sarah Knight, New York Times bestselling

Six Thinking Hats

The Traveler's Gift

A compelling guide to ethical thinking for everyday life In *How to Make Good Decisions and Be Right All the Time* Iain King presents an introduction to moral philosophy from the ancient Greeks to the Enlightenment and beyond. He argues that right and wrong need a Newtonian revolution so that they are no longer a matter of judgment or guesswork and presents a system of simple formulas for solving difficult moral quandaries. Clearly argued, the book combines new ideas with old and rips apart traditional tenets of morality, dismantling even the golden rule that you should "do unto others as you would have done unto you." In their place, the author constructs a new, comprehensive system of ethics, identifying the basic DNA of right and wrong and offering clear advice on how to be good in today's complicated and challenging world. Sometimes controversial and thoroughly engaging throughout, *How to Make Good Decisions and Be Right All the Time* is required

Teens Can Make It Happen

From the author of the wildly popular bestseller *The 7 Habits of Highly Effective Teens* comes the go-to guide that helps teens cope with major challenges they face in their lives—now updated for today’s social media age. In this newly revised edition, Sean Covey helps teens figure out how to approach the six major challenges they face: gaining self-esteem, dealing with their parents, making friends, being wise about sex, coping with substances, and succeeding at school and planning a career. Covey understands the pain and confusion that teens and their parents experience in the face of these weighty, life-changing, and common difficulties. He shows readers how to use the 7 Habits to cope with, manage, and ultimately conquer each challenge—and become happier and more productive. Now updated for the digital and social media age, Covey covers how technology affects these six decisions, keeping the information and advice relevant to today’s teenagers.

The Teen's Guide to World Domination

With an enduring grasp of human nature, Dale Carnegie's *How to Win Friends and Influence People* teaches his readers how to handle people without letting them feel manipulated, how to make people feel important without inspiring resentment, how win people over to your point of view without causing offence, and how to make a friend out of just about anyone. Published in 1937, Carnegie's *How to Win Friends and Influence People*, was originally written as a companion book to his lectures on how to be a good salesperson. However, what began as a basic sales primer, quickly exploded into an overnight success, eventually selling more than 15 million copies worldwide, and pioneering an entire genre of self-help and personal success books. Ask a Manager

As the scion of one of New York's leading families, Newland Archer was born into a life of sumptuous privilege and strict duty. Though sensitive and intelligent, Archer respects the rigid social code of his class and plans to marry "one of his own kind," the striking May Welland. But the arrival of the free-spirited Countess Olenska, who breathes clouds of European sophistication, makes him question his formerly complacent life. As he falls ever more deeply in love with her, he discovers just how hard it is to escape the bounds of his society. Edith Wharton's Pulitzer Prize-winning novel is at once a poignant story of frustrated love and an extraordinarily vivid and satirical portrait of a vanished world. The world's greatest works of literature are now available in these beautiful keepsake volumes. Bound in real cloth, and

Life Lists for Teens

Josh Shipp has been serving up a healthy dose of "advice with an attitude" to millions of teens for over a decade, in front of packed auditoriums across the country. For the first time ever, Josh is pulling together all of his unique advice for "world domination" into a must-have survival guide. Hilarious, inspirational, and authentic, Josh offers golden nuggets of wisdom for everything that has you freaking out (pretty much all the stuff you can't fathom addressing with Mom and Dad). So, summon your inner hero and learn to dominate the seven "villains" that are keeping you from awesomeness.

GHOSTS: All your painful memories and bad mistakes, which are holding you back and causing self-doubt. Confront them once and for all

NINJAS: Back-stabbing "friends" who earn your trust to fulfill their own agendas. Call them out and they won't stand a chance

PIRATES: Bullies and bad boyfriends who take advantage of you. Write them off and tune them out

ROBOTS: Well-intentioned but misguided grown-ups, who want to "program" you to be like them.

You Don't Have to Learn Everything the Hard Way

Every day we make decisions: about the things that we buy or the meals we eat; about the investments we make or our children's health and education; even the causes that we champion or the planet itself. Unfortunately, we often choose poorly. We are all susceptible to biases that can lead us to make bad decisions that make us poorer, less healthy and less happy. And, as Thaler and Sunstein show, no choice is ever presented to us in a neutral way. By knowing how people think, we can make it easier for them to choose what is best for them, their families and society. Using dozens of eye-opening examples the authors demonstrate how to nudge us in the right directions, without restricting our freedom of choice. Nudge offers a unique new way of looking at the world for individuals and governments alike. This is one of the most engaging, provocative and important

How to Make Good Decisions and Be Right All the Time

In *How to Make Decisions with Different Kinds of Student Assessment Data*, best-selling author Susan M. Brookhart helps teachers and administrators understand the critical elements and nuances of assessment data and how that information can best be used to inform improvement efforts in the school or district. Readers will learn—

- * What different kinds of data can—and cannot—tell us about student learning;
- * What different analyses reveal about changes in student achievement;
- * How to interpret, use, and share relevant data; and
- * How to create a model to go from problem to solution in a data-based decision-making process.

With easy-to-understand explanations, supplemented by examples and scenarios from actual schools, this book offers a path to better understanding, more accurate interpretation of assessment results, and—most important—more effective use of data to improve teaching and learning.

the way we think. System 1 is fast, intuitive, and emotional; System 2 is slower, more deliberative, and more logical. The impact of overconfidence on corporate strategies, the difficulties of predicting what will make us happy in the future, the profound effect of cognitive biases on everything from playing the stock market to planning our next vacation—each of these can be understood only by knowing how the two systems shape our judgments and decisions. Engaging the reader in a lively conversation about how we think, Kahneman reveals where we can and cannot trust our intuitions and how we can tap into the benefits of slow thinking. He offers practical and enlightening insights into how choices are made in both our business and our personal lives—and how we can use different techniques to guard against the mental glitches that often get us into trouble. Winner of the National Academy of Sciences Best Book Award and the Los Angeles Times Book Prize and selected by The New York Times Book Review as one of the ten best books of 2011, *Thinking, Fast and Slow* is destined to be a classic.
