The Hodges Harbrace Handbook

Writing in a lively, informal style, two editors with extensive experience in a wide variety of fields--fiction and nonfiction, trade and reference, academic and commercial publishing--explain what editors in different jobs really do in this concise practical guide.

Express Yourself

In our talkative Western culture, speech is synonymous with authority and influence while silence is frequently misheard as passive agreement when it often signifies much more. In her groundbreaking exploration of silence as a significant rhetorical art, Cheryl Glenn articulates the ways in which tactical silence can be as expressive and strategic an instrument of human communication as speech itself. Drawing from linguistics, phenomenology, feminist studies, anthropology, ethnic studies, and literary analysis, *Unspoken: A Rhetoric of Silence* theorizes both a cartography and grammar of silence. By mapping the range of spaces silence inhabits, Glenn offers a new interpretation of its complex variations and uses.

Glenn contextualizes the rhetoric of silence by focusing on selected contemporary examples. Listening to silence and voice as gendered positions, she analyzes the highly politicized silences and words of a procession of figures she refers to as "all the President's women," including Anita Hill, Lani Guiner, Gennifer Flowers, and Chelsea Clinton. She also turns an investigative ear to the cultural taciturnity attributed to various Native American groups—Navajo, Apache, Hopi, and Pueblo—and its true meaning. Through these examples, Glenn reinforces the rhetorical contributions of the unspoken, codifying silence as a rhetorical device with the potential to deploy, defer, and defeat power. Unspoken concludes by suggesting opportunities for further research into silence and silencing, including music, religion, deaf communities, cross-cultural communication, and the circulation of silence as a creative resource within the college classroom and for college writers.

Rhetoric Retold

A timely collection of essays by prominent scholars in the field—on the past, present, and future of rhetoric instruction. From Isocrates and Aristotle to the present, rhetorical education has consistently been regarded as the linchpin of a participatory democracy, a tool to foster civic action and social responsibility. Yet, questions of who should receive rhetorical education, in what form, and for what purpose, continue to vex teachers and scholars. The essays in this volume converge to explore the purposes, problems, and possibilities of rhetorical education in America on both the undergraduate and graduate levels and inside and outside the academy. William Denman examines the ancient model of the "citizen-orator" and its value to democratic life. Thomas Miller argues that English departments have embraced a literary-research paradigm and sacrificed the teaching of rhetorical skills for public participation. Susan Kates explores how rhetoric is taught at nontraditional institutions, such as Berea College in Kentucky, where Appalachian dialect is espoused. Nan Johnson looks outside the academy at the parlor movement among women in antebellum America. Michael Halloran examines the rhetorical education provided by historical landmarks, where visitors are encouraged to share a common public discourse. Laura Gurak presents the challenges posed to traditional notions of literacy by the computer, the promises and dangers of internet technology, and the necessity of a critical cyber-literacy for future rhetorical curricula. Collectively, the essays coalesce around timely political and cross-disciplinary issues. *Rhetorical Education in America* serves to orient scholars and teachers in rhetoric, regardless of their disciplinary home, and help to set an agenda for future classroom practice and curriculum design.

International and Comparative Studies

After explaining how and why women have been excluded from the rhetorical tradition from antiquity through the Renaissance, Cheryl Glenn provides the opportunity for Sappho, Aspasia, Diotima, Hortensia, Fulvia, Julian of Norwich, Margery Kempe, Margaret More Roper, Anne Askew, and Elizabeth I to speak with equal authority and as eloquently as Plato, Aristotle, Cicero, and Augustine. Her aim is nothing less than regendering and changing forever the history of rhetoric. To that end, Glenn locates women's contributions to and participation in the rhetorical tradition and writes them into an expanded, inclusive tradition. She regenders the tradition by designating those terms of identity that have promoted and supported men's control of public, persuasive discourse -- the culturally constructed social relations between, the appropriate roles for, and the subjective identities of women and men. Glenn is the first scholar to contextualize, analyze, and follow the migration of women's rhetorical accomplishments systematically. To locate these women, she follows the migration of the Western intellectual tradition from its inception in classical antiquity and its confrontation with and ultimate appropriation by evangelical Christianity to its force in the medieval Church and in Tudor arts and politics. Glenn sets the scope of her study from antiquity to the Renaissance for several reasons, not the least of which is that the Enlightenment saw the end of classical rhetoric as the dominant and most influential system of education and communication. Equally important, the Enlightenment brought about the demise of the one-sex model of humanity that centered on the telos of perfect maleness --with women and children being perceived as undeveloped men. Glenn expands the history of rhetoric by including the contributions of women. She is not writing a compensatory history or a history of rhetoric by women; she is integrating the rhetorical accomplishments of women into the context of the male-dominated and male-documented rhetorical tradition and, in the process, enriching that tradition.

The Hodges Harbrace Handbook

First published in 1643, this book is one of the most important artifacts of early Indigenous American culture. In it, Roger Williams recorded the day-to-day experience of the Narragansett people of Rhode Island in their own words, the first documentation of an American Indian language in English. Williams's book can be read at many levels because of its historical, literary, political, and religious significance. Its greatest value, though, is its intimate portrait of the Narragansett and their linguistic neighbors in the early years of European colonial settlement, before disease, dislocation, warfare, in particular, King Philip's War; and colonial interference had diminished their population and power in the region. An extraordinary achievement, this book gives us a contemporary account of Narragansett family life, of their sociability and skill in business, their dress, foodways, and the farming, fishing, and hunting that formed the basis of their sustenance practices. This new Tomaquag Museum edition includes for the first time cultural commentary provided by the Narragansett Tribe as well as modern linguistic information provided by a leading authority in the study of American Indian languages.

What If?

What If? is the first handbook for writers based on the idea that specific exercises are one of the most useful and provocative methods for mastering the art of writing fiction. With more than twenty-five years of experience teaching creative writing between them, Anne Bernays and Pamela Painter offer more than seventy-five exercises for both beginners and more experienced writers. These exercises are designed to develop and refine two basic skills: writing like a writer and, just as important, thinking like a writer. They deal with such topics as discovering where to start and end a story; learning when to use dialogue and when to use indirect discourse; transforming real events into fiction; and finding language that both sings and communicates precisely. What If? will be an essential addition to every writer's library, a welcome and much-used companion, a book that gracefully borrows a whisper from the muse.
