The teaching of English in the Asian context is always challenging and dynamic because both teachers and learners have diverse linguistic and cultural backgrounds. Equally important, where English is not widely used outside the classroom, English language classrooms are an authentic site of learner engagement. For these reasons, for all those concerned with contemporary English language teaching (ELT) in Asia, *Asian English Language Classrooms: Where Theory and Practice Meet*, provides an account of theoretical orientations and practices in the teaching of English to multilingual speakers whose primary language is not English. While covering the fundamental ELT areas (e.g., the teaching of language skills, educational literature, the use of technology in ELT, the

role of pragmatics in ELT, social psychology of the language classroom, and language classroom management) with which every language teacher and teacher trainer must be concerned, this volume showcases how particular orientations shape ELT practices. We believe that practicing English teachers must have a heightened awareness of the theory behind their practice. At the same time, the theoretical stance must be firmly anchored in actual classrooms. Containing newly commissioned chapters written by well-regarded and emerging scholars, this book will appeal not only to beginning teachers or teachers in training but also to established teachers around Asia where English is used as a lingua franca. If you are a student teacher of English or an English teacher who would like to see what other progressive teachers like you are doing across Asia, this is the book you have been looking for.

Reflective Practice in English Language Teaching

The narrowing of English language education curriculum in many contexts has negatively impacted classroom teaching and learning. High-stakes standardized testing, scripted curricula, and the commodification of English have converged to challenge socially meaningful classroom literacy instruction that promotes holistic development. Although in different ways, these factors have shaped the teaching of English as both first and second language. How can English educators respond? This book argues that the first step is to take account of the broader policy,

political and cultural landscape and to identify the key constraints affecting teachers, students and parents. These will set the broad parameters for developing local pedagogic approaches, while still recognizing the constraints that actively push against them. Using Singapore English language teaching as a case study, this book illustrates how this process can unfold, and how media literacy principles were vernacularized to design English classroom pedagogies that stretched the bounds of what is acceptable and possible in the local context.

Principles and Practices for Teaching English as an International Language

The Pedagogy and Practice of Western-trained Chinese English Language Teachers

Essential Teacher Knowledge

Teaching Grammar, Structure and Meaning introduces teachers to some basic ideas from the increasingly popular field of cognitive linguistics as a way of explaining and teaching key grammatical concepts. Particularly suitable for those teaching post-16 English Language, this book offers a methodology for teaching key aspects of linguistic form and an extensive set of learning activities. Written by an experienced linguist and teacher, this book contains:

- an evaluation of current approaches to the teaching of grammar and linguistic form
- a revised pedagogy based on principles from cognitive science and cognitive linguistics
- a comprehensive set of activities and resources to support the teaching of key linguistic topics and text types
- a detailed set of suggestions for further reading and a guide to available resources

Arguing for the use of drama, role play, gesture, energy dynamics, and visual and spatial representations as ways of enabling students to understand grammatical features, this book explores and analyses language use in a range of text types, genres and contexts. This innovative approach to teaching aspects of grammar is aimed at English teachers, student teachers and teacher trainers.

Teaching Grammar, Structure and Meaning

Race, Empire, and English Language Teaching

This book explores the ideologies, policies, and practices of English language education around the world today. It shows the ways in which ideology is a constituent part of the social realities of English language teaching (ELT) and how ELT policies and practices are shaped by ideological positions that privilege some participants and marginalize others. Each chapter considers the multiple ideologies underlying the thinking and actions of different members of society about ELT and how these inform overt and covert policies at the national level and beyond. They examine the implications of investigating ELT ideologies and policies for advancing socio-political understandings of practical aspects such as instruction, materials, assessment, and teacher education in the field. Introducing new perspectives on the theory and practice of language teaching today, this book is ideal reading for researchers and postgraduate students interested in applied linguistics and language education, faculty members of higher education institutions, English language teachers, and policy makers and planners.

Bringing together a comprehensive range of extended research-based chapters, English Language Teacher Preparation in Asia provides comprehensive insight into policy, research, and practical aspects of teacher preparation for English teachers at pre-service level across multiple contexts in Asia. Written by local and international scholars specialising in TESOL Teacher education, and acknowledging the increasingly complex demands made on teachers of English in view of globalisation, the book explores the multiple factors which are key to effective professional learning. Chapters consider how pre-service teachers are best prepared for the diverse contexts in which English is learnt and taught in settings throughout Asia and draw on in-depth research studies to provide rich, fully contextualised coverage of aspects of teacher preparation including curriculum design, programme development, policy, professional learning communities, assessment education, and teaching practicum. A timely contribution to the field of teacher preparation, this text will be an invaluable resource for teacher educators, pre-service teachers and academics involved in the preparation of English teachers in Asia.

Principles and Practices of Teaching English as an International Language

When English Language Learners Write

English Language Teaching Today: Linking Theory and Practice provides an up-to-date account of current principles and practices for teaching English in the world today. The chapters, written by internationally recognized language teacher educators and TESOL specialists, introduce the reader to key language skill areas (i.e., listening, speaking, reading, writing, pronunciation, grammar and vocabulary) and explain how each skill area can be taught in a principled manner in diverse language learning contexts. Throughout the book, the link between theory and practice is explicitly highlighted and exemplified. This reader-friendly book is suitable for undergraduate and graduate students enrolled in TESOL and other second language education programmes as well as for TESOL professionals who wish to stay current with recent developments in ELT.

English Language Teaching:Principles&Practice

Worldwide English Language Education Today

This timely book takes a critical look at the teaching of English, showing how

language is used to create hierarchies of cultural privilege in public schools across the country. Motha closely examines the work of four ESL teachers who developed anti-racist pedagogical practices during their first year of teaching. Their experiences, and those of their students, provide a compelling account of how new teachers might gain agency for culturally responsive teaching in spite of school cultures that often discourage such approaches. The author combines current research with her original analyses to shed light on real classroom situations faced by teachers of linguistically diverse populations. This book will help pre- and in-service teachers to think about such challenges as differential achievement between language learners and "native-speakers;" about hierarchies of languages and language varieties; about the difference between an accent identity and an incorrect pronunciation; and about the use of students' first languages in English classes. This resource offers implications for classroom teaching, educational policy, school leadership, and teacher preparation, including reflection questions at the end of each chapter.

The Practice of English Language Teaching

This carefully balanced set of studies and practitioner research projects carried out in various learning contexts around the world highlights cutting-edge research in the use of digital learning technologies in language classrooms and in online

learning. Providing an overview of recent developments in the application of educational technology to language learning and teaching, it looks at the experience of researchers and practitioners in both formal and informal (self-study) learning contexts, bringing readers up to date with this rapidly changing field and the latest developments in research, theory, and practice at both classroom and education system levels.

Teaching Oral English

What general principles should inform a socioculturally sensitive pedagogy for teaching English as an International Language and what practices would be consistent with these principles? This text explores the pedagogical implications of the continuing spread of English and its role as an international language, highlighting the importance of socially sensitive pedagogy in contexts outside inner circle English-speaking countries. It provides comprehensive coverage of topics traditionally included in second language methodology courses (such as the teaching of oral skills and grammar), as well as newer fields (such as corpora in language teaching and multimodality); features balanced treatment of theory and practice; and encourages teachers to apply the pedagogical practices to their own classrooms and to reflect on the effects of such practices. Designed for pre-service and in-service teachers of English around the world, *Principles and Practices for Teaching English as an International Language* fills a critical need in the field.

English Language Teaching Today

Ideological and educational-political aspects of the link between language and faith—especially between Global English and Christianity—is a topic of growing interest in the field of English language teaching. This book explores the possible role and impact of teachers' and students' faith in the English language classroom. Bringing together studies representing a diversity of experiences and perspectives on the philosophies, purposes, practices, and theories of the interrelationship of Christianity and language learning and teaching, it is on the front line in providing empirical data that offers firm insights into the actual role that faith plays in various aspects of the language learning/teaching experience. By adding a data-based dimension, the volume contributes to the cultivation of valid research methods and innovative ways to analyze and interpret studies of the intersection of Christian faith and the practice of teaching and learning language. .

Christian Faith and English Language Teaching and Learning

This is a textbook which looks at the practice of ELT from an Indian perspective. It has a training-oriented approach and can be used as a manual by teacher trainers, students at the undergraduate and graduate levels in B.Ed. and allied programmes.

Approaches to Teaching the History of the English Language

Assessing English Language Learners explains and illustrates the main ideas underlying assessment as an activity intimately linked to instruction and the basic principles for developing, using, selecting, and adapting assessment instruments and strategies to assess content knowledge in English language learners (ELLs). Sensitive to the professional development needs of both in-service and pre-service mainstream teachers with ELLs in their classrooms and those receiving formal training to teach culturally and linguistically diverse students, the text is designed to engage readers in viewing assessment as a critical part of teaching appreciating that assessments provide teachers with valuable information about their students' learning and thinking becoming aware of the relationship among language, culture, and testing understanding the reasoning that guides test construction recognizing the limitations of testing practices being confident that assessment is an activity classroom teachers (not only accountability specialists) can perform Highlighting alternative, multidisciplinary approaches that address linguistic and cultural diversity in testing, this text, enhanced by multiple field-tested exercises and examples of different forms of assessment, is ideal for any course covering the theory and practice of ELL assessment.

Teaching English in Africa is a practical guide written for primary and secondary school teachers working all over the continent. This book relates the practice of English language teaching directly to the African context. As well as covering the underlying theory of how children learn languages and how teachers can best facilitate this learning, it also provides practical resources and ideas for activities and techniques that have proved successful in English classrooms in Africa, both at primary and secondary level. It is intended to be a practical guide, so references and citations are kept to a minimum and concepts are presented using examples that are likely to be familiar to most teachers working in Africa. If there is a bias in this book, it is towards the needs of teachers working in low-resource, isolated contexts in Africa, as these teachers are so often neglected by literature on teaching methodology.
