Supernatural - Joyride

Dean believes that Sam is in Hell so he is trying to keep his promise to his brother and live a normal life with Lisa and Ben. When he realizes that a spell in the Necronomicon could raise Lucifer and therefore Sam, he convinces his new family to travel with him on vacation to Salem. Meanwhile Sam is not as far away as Dean thinks and is determined to protect his brother from the Salem witches A Supernatural novel that reveals the untold events of the missing year between seasons 5 and 6!

The Malleus Maleficarum

Teenager Renee Mendez is a talented artist living in a small Illinois town. She loves drawing the strange beings that feature in her dreams, without realizing that when she depicts them on paper, they come to life in the real world. These gods begin to seek worshippers and battle for supremacy, killing humans and each other until only the two strongest remain. Sam and Dean come to town to investigate the murders and "miracles" these new gods perform, slaying some of them in the process. The last two gods standing prepare for their final conflict, which only one will survive. The brothers must find a way to stop the gods' war before the entire town is destroyed.

Chasing the Dead

Supernatural: Coyote's Kiss

When a gruesome murder takes place in Braden Heights, Indiana, the local authorities suspect the disemboweled and eyeless corpse is the result of an animal attack. But when another body is discovered, the eyes gouged out, Sam, Dean and Castiel start looking for connections between the victims—and discover both men were soon-to-be fathers. As the boys hunt the killer, they unearth the town's troubled past, and secrets some would prefer stay buried forever. A brand-new Supernatural novel, set during season 10, that reveals a previously unseen

adventure for the Winchester brothers, from the hit CW series!

How the Irish Saved Civilization

Twenty-two years ago, Sam and Dean Winchester lost their mother to a mysterious and demonic supernatural force. In the years after, their father, John, taught them about the paranormal evil that lives in the dark corners and on the back roads of America and he taught them how to kill it. Sam and Dean have hit New York City to check out a local rocker's haunted house. But before they can figure out why a lovesick banshee in an '80s heavy-metal T-shirt is wailing in the bedroom, a far more macabre crime catches their attention. Not far from the house, two university students were beaten to death by a strange assailant. A murder that's bizarre even by New York City standards, it's the latest in a line of killings that the brothers soon suspect are based on the creepy stories of legendary writer Edgar Allan Poe. Their investigation leads them to the center of one of Poe's horror classics, face-to-face with their most terrifying foe yet. And if Sam and Dean don't rewrite the ending of this chilling tale, a grisly serial killer will end their lives forevermore.

Grimm: The Icy Touch

Sue Young returns home from work to discover that her one-year-old daughter has been kidnapped by an abductor who knows her darkest secret. She is forced to follow the kidnapper's chilling instructions on a twisted route through a series of small Massachusetts towns if she hopes to rescue her child by morning.

Supernatural: The Unholy Cause

Picking up several years after the television hit miniseries, *Rising Son*, Sam and Dean Winchester--who seek revenge on the supernatural elements that took their mother--find themselves in the strangest situation imaginable: monster hunting in the Big Apple. Original.

Dragon Mated

Albert Fish held the genuine belief that the murders he committed were upon instruction from God. Peter Stumpp, who started practising the "wicked arts from twelve years of age", was convinced he was a werewolf. There are many more murderous individuals like them. *Supernatural Serial Killers* explores the association between serial killers and the supernatural. The crimes committed by these men and women usually involved sexual deviance, cannibalism and violence toward children. In sixteenth century Europe, the problem became so significant that 'Werewolf Witch Trials' were conducted--many have no idea that it was possible to be tried and convicted for the crime of being a Werewolf, but Lycanthropy was a serious and major social concern in the 1500s. In this book, approximately twenty supernatural serial killers are discussed, including their background, crimes, trials and defences. Using the latest scientific research, this book explains such phenomena as blood drinking, sadomasochism, the borrowing of other people's identities, how killers come to believe they are supernatural beings and much besides. Fully illustrated. Written in easy, approachable English.

Supernatural: Bobby Singer's Guide to Hunting

A brand new Supernatural novel inspired by the record-breaking show starring Jared Padalecki and Jensen Ackles. Sam and Dean Winchester have spent their lives on the road, battling every kind of supernatural threat. Over the years, after dozens of bloody adventures, they have faced everything from the yellow-eyed demon that killed their mother to vampires, ghosts, shapeshifters, angels and fallen gods. With the help of allies--both human and supernatural--they've discovered that every threat they vanquish opens a new door for evil to enter in. At the stroke of midnight, everyone awake in a small Missouri town suddenly falls unconscious in the middle of whatever they were doing. When Sam and Dean investigate, the town seems peaceful. But they soon uncover a wave of strange behavior - streaking, petty vandalism and random violence - and nobody can remember why they did it. With reports of strange shadows and horrible murders, the Winchesters dig deep into the town's secrets and uncover a tragedy fifty years in the making. A brand-new Supernatural novel, set during season 12, that reveals a previously unseen adventure for the Winchester brothers, from the hit TV series!

The God Delusion. 10th Anniversary Edition

A brand new Supernatural novel inspired by the record-breaking show starring Jared Padalecki and Jensen Ackles. A brand-new Supernatural novel that reveals a previously unseen adventure for the Winchester brothers, from the hit TV series! Sam and Dean travel to Indiana, to investigate a murder that could be the work of a werewolf. But they soon discover that werewolves aren't the only things going bump in the night. The town is also home to a pack of jakkals who worship the god Anubis: carrion-eating scavengers who hate werewolves. With the help of Garth, the Winchester brothers must stop the werewolf-jakkal turf war before it engulfs the town - and before the god Anubis is awakened

BOOK SIX: THE PROPHET AND HIS REVELATION (1960-1965)When the first two stages of William Branham's ministry had been well established, the question persisted: what was the third stage to be? Following the leading of God, William Branham set about in the final five years of his life to deliver a series of sermons that would carry the church into a deeper understanding of the mysteries of the scripture that have been hidden since time began. What do the mysterious symbols in the book of Revelation mean? What is the "mystery of God" spoken of in the New Testament? These are things that have been probed at, speculated on, and debated in the institutions of Christianity for two thousand years. But what happens when God Himself undertakes to reveal the answers? It has happened,

and the wonderful story is here for you to read.

Supernatural - Mythmaker

After pissing off the head of the supernatural lab, failing at befriending my fellow inmates, and pitching a temper tantrum in the underground cafeteria, it was only a matter of time before I had to do something about this whole captivity thing. For me, Cassandra Thorn, being born as a human, raised by an elite group of supernaturals, and struggling to reach my twentieth birthday was far more fun than this. Then again, anything would be. In this case, "this" refers to being taken against my will--kidnapped--and trapped in an underground lab for supernatural shifters. Pretty ridiculous, considering I was a mere mortal. Or so I was told. Turns out there are a lot of things I was told, not all of them true. Now a family secret has been revealed and destiny is just waiting for me to fulfill it but I was stuck in Prison Boringville with a bunch of not-so-friendly detainees. Being a supernatural inmate isn't my style, so with the very new powers bestowed upon me, I was getting my booty out of this hellhole. Unless Adonis the sexy incubus, Dominick the deadly fae master, Otis the death-seeking vampire, and Tristan the sly shapeshifter bust me out first. *Supernatural Inmate* is the first book in the *Supernatural Captivity* series, a Paranormal Prison Romance.

Supernatural: Nevermore

THE FIRST ORIGINAL NOVEL TO TIE-IN WITH THE HIT US SHOW, INSPIRED BY THE GRIMM BROTHERS' CLASSIC FAIRY TALES! Back in the 19th century a Wesen and a Grimm fight to the death. The Grimm wins, but the Wesen's son escapes and vows revenge. In the present day, Captain Renard sends Nick and Hank to investigate an international crime cartel named Le Touche Givre (The Icy Touch). They discover this deadly gang is run by Wesen, and is involved in various illegal activities, including forced prostitution and drug pushing. As they close in on the gang, Nick begins to realise that their charismatic and dangerous leader is just as intent on tracking him down...

The Supernatural Detective

Spanning many different epochs and varieties of religious experience, this book develops a new approach to religion and its role in human history. The authors look across a range of religious phenomena--from ancestor worship to totemism, shamanism, and worldwide modern religions--to offer a new explanation of the evolutionary success of religious behaviors. Their book is more empirical and verifiable than most previous books on evolution and religion because they develop an approach that removes guesswork about beliefs in the supernatural, focusing instead on the behaviors of individuals. The result is a pioneering look at how and why natural selection has favored religious behaviors throughout history.

Supernatural - Cold Fire

Twenty-two years ago, Sam and Dean Winchester lost their mother to a mysterious and demonic supernatural force. In the years after, their father, John, taught them about the paranormal evil that lives in the dark corners and on the back roads of America and he taught them how to kill it. Sam and Dean have set out on a road trip to the Grand Canyon, but this is no vacation for the brothers. On a stretch of deserted rangeland just beyond the canyon's stunning vistas, mysterious murder sprees have occurred every forty years. The area's inhabitants have been few and far between in years past, but a nearby mega-mall is about to celebrate its grand opening—and attract thousands of fresh victims. The Winchester boys are determined to protect locals and shoppers alike, but they never anticipated they'd be fighting a group of killers this vicious, this vindictive, this . . . dead. A deadly horde of animal spirits and human ghosts has arisen to terrorize this tiny corner of the Arizona desert. If Sam and Dean can't figure out why, the wide-open spaces of the West will once again become a desolate frontier . . . and the witch's canyon will be the brothers' final resting place.

Supernatural - Children of Anubis

To the "natural thinker" the supernatural is unnatural. But to the person with a renewed mind, the supernatural becomes the new normal! In this book you will learn how to renew your mind so that kingdom power becomes natural to you. You will learn how to overcome ordinary thinking and expectations, and how to connect to heaven and release kingdom power that flows through you so that you can create miracles and blessings for yourself and for others - in all areas of life. You no longer will have to endure pain, suffering, illnesses, unhappiness, loneliness, financial problems, nor any other problem. This book will show you how to eliminate these afflictions through the release of kingdom power the betterment of yourself, your loved ones and mankind! This book reveals the only way to release supernatural power and blessings into our life without engaging in dangerous occult practices and reaping the unwelcome consequences thereof. Once we let go of traditional thinking and ordinary thinking and replenish our minds with the true words of God, then we are connected to heaven and kingdom power can flow through us so that we can create miracles for ourselves and other. Do you REALLY believe in miracles? Do you know anybody who does? Is there Supernatural evidence of God's presence today on earth? We will reveal much evidence in this book. The supernatural is difficult to accept or witness if you have a "natural" mindset. When you operate and live in the natural your mind refuses to accept anything that is supernatural. We can experience the kingdom of God right here in the now when we plug into supernatural power from heaven. When the Lord went to heaven he delegated to you and I (the church) the honor to expand his kingdom throughout the earth. The gospel of the kingdom is supernatural because it brings heaven down to earth. God is a supernatural God and when we are connected with him we become his representatives to release supernatural power to administer his works here on earth. In heaven the supernatural is the normal. Heaven is not this place way out of reach in outer space. Heaven can exist here and now! Invisible heaven becomes visible here and now when others witness miracles and healing before their very eyes, through the works of empowered individuals.

The Supernatural Book of Monsters, Spirits, Demons, and Ghouls

In *The Supernatural Science - Theory and Magic*, the reader finds many explanations for various themes given as mystical or supernatural. The explanations given by Dave Rei Martins go far beyond mere descriptions, also, they are a scientific analysis and detached of "mysteries" or reasons of religious nature. The explanations are based on experiments made by renowned universities and laboratories in various countries. The correlation shown between paranormal events is dissected and analyzed, encompassing quantum physics, astrophysics, neuropsychology, biology, and neurology to give us a greater understanding of what those facts are. For example, from time to time we hear about the law of attraction, communication with spirits, karma, and so on, but how does all this happen? How does this attraction occur from a scientific point of view? In communicating with spirits, how can a living person hear a dead person? Is it the case of a more powerful ear or is there a neutrino wave carrying sound from another dimension, which is accessed by the medium and their electromagnetic field? This book addresses the "hows" and not the "whys" such events happen. That the law of attraction exists, we all know, but when we dig deep, we find no answers to how it works. We just learn the same thing on different wording: "The law of attraction is all about you attract what you think", "The law of attraction works because thought has power", "The law of attraction is a universal law", "You attract what you think" and The list goes on. In this book, the reader finds the answer he or she so much seeks. What power is that the brain has? And what is this power made of? Is it an electromagnetic wave? What is the vibration range of this wave? Can it be seen in Magnetic Resonance Imaging? Is it the case of the neuronal synapse that transforms electrical impulses into electromagnetic impulses that will give rise to extensive interaction with the Higgs field, and this will bring together the fermions and neutrinos needed to shape the initial impulse of thought into magnetic, making thoughts capable of attracting something physical? In *The Supernatural Science - Theory and Magic*, the reader has a chance to know the names and all the terminologies regarding the particles that make up the aura; to know the mechanisms of the tarot cards wavefield, and how a person can be identified as a medium under biological analysis and magnetic resonance. This book is an amalgamation of science and spirituality as it has never seen before. There are scientific explanations or simplifications for all the spiritual or magical events, and this book brings more objectivity to all the spiritual topics, having us closer to science and rationality while validating and making all mystical and paranormal events sound like a computer and software specifications. "Miracle or magic is what science cannot explain or understand until the phenomenon is understood or studied, then scientists call it a physical event."

Rite of Passage

"A handbook for hunting and punishing witches to assist the Inquisition and Church in exterminating undesirables. Mostly a compilation of superstition and folklore, the book was taken very seriously at the time it was written in the 15th century and became a kind of spiritual law book used by judges to determine the guilt of the accused"--From publisher description.

Evil Ways

The God Delusion caused a sensation when it was published in 2006. Within weeks it became the most hotly debated topic, with Dawkins himself branded as either saint or sinner for presenting his hard-hitting, impassioned rebuttal of religion of all types. His argument could hardly be more topical. While Europe is becoming increasingly secularized, the rise of religious fundamentalism, whether in the Middle East or Middle America, is dramatically and dangerously dividing opinion around the world. In America, and elsewhere, a vigorous dispute between 'intelligent design' and Darwinism is seriously undermining and restricting the teaching of science. In many countries religious dogma from medieval times still serves to abuse basic human rights such as women's and gay rights. And all from a belief in a God whose existence lacks evidence of any kind. Dawkins attacks God in all his forms. He eviscerates the major arguments for religion and demonstrates the supreme improbability of a supreme being. He shows how religion fuels war, foments bigotry and abuses children. The God Delusion is a brilliantly argued, fascinating polemic that will be required reading for anyone interested in this most emotional and important subject.

Tales of Horror and the Supernatural

In the stunning conclusion to the Supernatural Prison trilogy, Jessa Lebron finds herself deep in the world of Larkspur, the dragon king. She will have to play it smart and fight with everything to stay one step ahead of him and while at times it's tough to keep her focus, she will do anything to escape and reunite with her boys, the Compass quads. Of course, it's impossible to be where she is and not dig deeper into the curse of the dragon mark. As more information is uncovered, she starts to understand why she, of all supernaturals, was the one to be singled out. And this changes everything she thought she knew. Turns out she doesn't know a damn thing. There will be decisions to make. Tough decisions. Jessa has to be strong enough for the sake of the supernatural races, but sometimes that's easier said than done.

Supernatural and Natural Selection

The perfect St. Patrick's Day gift, and a book in the best tradition of popular history -- the untold story of Ireland's role in maintaining Western culture while the Dark Ages settled on Europe. Every year millions of Americans celebrate St. Patrick's Day, but they may not be aware of how great an influence St. Patrick was on the subsequent history of civilization. Not only did he bring Christianity to Ireland, he instilled a sense of literacy and learning that would create the conditions that allowed Ireland to become "the isle of saints and scholars" -- and thus preserve Western culture while Europe was being overrun by barbarians. In this entertaining

and compelling narrative, Thomas Cahill tells the story of how Europe evolved from the classical age of Rome to the medieval era. Without Ireland, the transition could not have taken place. Not only did Irish monks and scribes maintain the very record of Western civilization -- copying manuscripts of Greek and Latin writers, both pagan and Christian, while libraries and learning on the continent were forever lost -- they brought their uniquely Irish world-view to the task. As Cahill delightfully illustrates, so much of the liveliness we associate with medieval culture has its roots in Ireland. When the seeds of culture were replanted on the European continent, it was from Ireland that they were germinated. In the tradition of Barbara Tuchman's *A Distant Mirror, How The Irish Saved Civilization* reconstructs an era that few know about but which is central to understanding our past and our cultural heritage. But it conveys its knowledge with a winking wit that aptly captures the sensibility of the unsung Irish who relaunched civilization. **BONUS MATERIAL:** This ebook edition includes an excerpt from Thomas Cahill's *Heretics and Heroes*.

Supernatural - The Life of William Branham, Volume III

My name is Bobby Singer. In twenty-four hours I'm gonna lose my memory. So here's everything you need to know. Monsters, demons, angels, vampires, the boogeyman under your bed: I've seen it, I've hunted it, I've killed it. I'm not the only hunter out here, but there aren't as many as there used to be. Not near as many as there need to be. I've learned everything I can about every damned critter that walks, crawls, or flies, and I'm not gonna let that all be for nothing. I'm not going down without a fight. I'm not letting everything I've learned disappear. So that's what you're holding in your hands—everything I know. Anything that'd be useful for Sam, Dean, and the hunters that come after me. It's a guide to hunting it's a guide to me. My last will and testament. Ya idjits.

Supernatural: Witch's Canyon

Twenty-three years ago, Sam and Dean Winchester lost their mother to a demonic supernatural force. Awaken the Supernatural You!

A novel based on the Emmy Award-winning television series created by Chris Carter. When a disease-ravaged body is found in the smoldering ruins of the federally funded DyMar genetic research lab, Agents Fox Mulder and Dana Scully fear that a deadly, man-made plague is on the loose. As the FBI agents investigating the "X-Files" -- cases the bureau has deemed unsolvable -- Mulder and Scully pursue the truth wherever it leads, even into the labyrinthine corridors of the FBI and beyond. Racing to contain the lethal virus before it can spread, Mulder and Scully make a chilling discovery. Before his death, Dr. David Kennessy, a hotshot cancer researcher at DyMar, had been experimenting with a promising but highly dangerous technology: microscopic bio-machines that can cure any disease, heal any wound. In theory, this research could be a miracle cure, perhaps even a doorway to immortality. It was also the only way Dr. Kennessy could save his leukemia-stricken son. But when a second corpse turns up, savagely mutilated from within, it's anything but theoretical. Could machines created to cure have learned to kill? Scrambling for answers, Mulder and Scully are opposed at every step by faceless enemies with all the resources of the government -- even perhaps of their own agency -- at their command. Enemies who will stop at nothing to ensure that the secret of immortality falls in the right hands -- their hands. As sinister forces close in, Scully fights to save the life of an innocent boy while Mulder comes face to face with a crazed and desperate man. A man whose slightest touch brings agonizing death -- and perhaps a resurrection more horrible still.
