J. M. Adovasio has spent the last thirty years at the center of one of our most fiery scientific debates: Who were the first humans in the Americas, and how and when did they get there? At its heart, *The First Americans* is the story of the revolution in thinking that Adovasio and his fellow archaeologists have brought about, and the firestorm it has ignited. As he writes, "The work of lifetimes has been put at risk, reputations have been damaged, an astounding amount of silliness and even profound stupidity has been taken as serious thought, and always lurking in the background of all the argumentation and gnashing of tenets has been the question of whether the field of archaeology can ever be pursued as a science."

### **Lessons Life Taught Me, Unknowingly**

Is there a specific Bible prophecy that must first be fulfilled before the return of Jesus Christ? Yes. While it is true that no exact date can be set for this event, the scriptures provide us with a clear context of specific world events that will create the time line for Jesus return. Jesus said, Of that day and hour no one knows (Matt. 24:36). If this was meant to be a mystery, it was also meant to be revealed eventually. Amos 3:7 says, Surely the Lord God does nothing unless He reveals His secret to His servants the prophets. This book brings to light the hidden mystery contained in the scriptures that the return of Jesus Christ should not be a surprise to those who believe. Jesus also made it clear that there will be a final and specific generation who will witness the fulfillment of all remaining end-of-time prophecies. This book brings clarity regarding the great tribulation. Is it seven years or three and a half years? What is the wrath of God, and why and how does it play a role in the last days? Beyond the general prophecies of wars, famines, earthquakes, etc., lies a great wealth of other specific and unique signs that will indicate the imminent return of Jesus. Are you ready?

Two delightfully dark tales of Gothic romance. In *A VERY PROPER MONSTER*, Josephine Shaw spends long nights filling the pages of her Gothic stories with the fantastic and the macabre, unaware that the suitor her father has arranged is one of the dark creatures she's always dreamed. For Tom Dargin, courting an ailing spinster was only one duty in a long life of service to his sire. But after he meets the curious Miss Shaw, will Tom become the seducer or the seduced? Can a love fated to end in tragedy survive a looming grave? In *GASLIGHT HADES*, Nathaniel Gordon walks two worlds—that of the living and the dead. Barely human, he's earned the reputation of a Bonekeeper, the scourge of grave robbers. He believes his old life over, until one dreary burial he meets the woman he once loved and almost married. Lenore Kenward stands at her father's grave, begging the protection of the mysterious guardian, not knowing he is her lost love. Resolved to keep his distance, Nathaniel is forced to abandon his plan and accompany Lenore on a journey into the mouth of Hell where sea meets sky, and the abominations that exist beyond its barrier wait to destroy them.

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

## Urban Outcasts

Christ Plays in Ten Thousand Places reunites spirituality and theology in a cultural context where these two vital facets of Christian faith have been rent asunder. Lamenting the vacuous, often pagan nature of contemporary American spirituality, Eugene Peterson here firmly grounds spirituality once more in Trinitarian theology and offers a clear, practical statement of what it means to actually live out the Christian life. Writing in the conversational style that he is well known for, Peterson boldly sweeps out the misunderstandings that clutter conversations on spiritual theology and refurnishes the subject only with what is essential. As Peterson shows, spiritual theology, in order to be at once biblical and meaningful, must remain sensitive to ordinary life, present the Christian gospel, follow the narrative of Scripture, and be rooted in the "fear of the Lord" -- in short, spiritual theology must be about God and not about us. The foundational book in a five-volume series on spiritual theology emerging from Peterson's pen, Christ Plays in Ten Thousand Places provides the conceptual and directional help we all need to live the Christian gospel well and maturely in the conditions that prevail in the church and world today.

## **The Reader's Digest Keyboard Course**

Breaking with the exoticizing cast of public discourse and conventional research, *Urban Outcasts* takes the reader inside the black ghetto of Chicago and the deindustrializing banlieue of Paris to discover that urban marginality is not everywhere the same. Drawing on a wealth of original field, survey and historical data, Loïc Wacquant shows that the involution of America's urban core after the 1960s is due not to the emergence of an 'underclass', but to the joint withdrawal of market and state fostered by public policies of racial separation and urban abandonment. In European cities, by contrast, the spread of districts of 'exclusion' does not herald the formation of ghettos. It stems from the decomposition of working-class territories under the press of mass unemployment, the casualization of work and the ethnic mixing of populations hitherto segregated, spawning urban formations akin to 'anti-ghettos'. Comparing the US 'Black Belt' with the French 'Red Belt' demonstrates that state structures and policies play a decisive role in the articulation of class, race and place on both sides of the Atlantic. It also reveals the crystallization of a new regime of marginality fuelled by the fragmentation of wage labour, the retrenchment of the social state and the concentration of dispossessed categories in stigmatized areas bereft of a

collective idiom of identity and claims-making. These defamed districts are not just the residual 'sinkholes' of a bygone economic era, but also the incubators of the precarious proletariat emerging under neoliberal capitalism. *Urban Outcasts* sheds new light on the explosive mix of mounting misery, stupendous affluence and festering street violence resurging in the big cities of the First World. By specifying the different causal paths and experiential forms assumed by relegation in the American and the French metropolis, this book offers indispensable tools for rethinking urban marginality and for reinvigorating the public debate over social inequality and citizenship at century's dawn.

Cardinal Education is an educational consulting and tutoring company based in Palo Alto, CA. Guided by a philosophy of fulfilling students' academic potential in a way that boosts skills and confidence for life, we work to maximize successful middle school, high school, and college admissions outcomes. While some of our methods defy "conventional wisdom," we

have a proven track record with a broad range of students: the Ivy League bound to those wishing to avoid community college, the self-motivated to the intransigently jaded, and the profoundly gifted to learning disabled. We have a passion for expanding students' dreams and helping them attain their goals. Cardinal Education believes in the social value of a strong public education system and sponsors pro bono programs to bring private sector expertise to bear. However, government fiscal policies are shortchanging public schools of opportunities: activities, sports, variety of classes, advanced classes, student: teacher ratios, and counseling departments. The "private school imperative" means that despite economic trends, admission to private school is becoming so competitive that it necessitates standardized testing excellence. The philosophy of this math workbook is rigor and drill. Because this is the first test students take that actively tries to trick students at every turn, students who sit for these standardized exams need reflexive familiarity with computation (math facts), problem types, and strategy. The entrance exams are the first standardized tests for which budgeting time is a significant issue. Students need to spend the majority of time on analysis to avoid getting tricked rather than computation. By building skills, speed, and confidence, we hope to eliminate anxiety and give students a solid foundation on which to build excellent scores. This book is intended as a supplement for our highly trained staff, so it does not include strategies. However, motivated students can use it successfully with occasional help from a teacher or parent. Each chapter is comprised of units, with each unit comprised of 4 problem sets of difficulty, increasing in a logically progressive manner. Students should do as many of the 4 problem sets for each unit as it takes to achieve a 90% accuracy rate. Students taking lower level exams should complete problems 1-10 in each set. Students competing for high school admissions should complete each problem set in its entirety. Questions or feedback: [Info@CardinalEducation.com](mailto:Info@CardinalEducation.com)

A bumpkin known as "Will Shakespeare" who longs to be an artist flees from his filthy barn, his homebound wife and her incessant chores. In Elizabethan London, did this stagestruck dreamer become a front man for Sir Francis Bacon, the Earl of Oxford and even Queen Elizabeth, authors too proud to admit they scribbled plays for the unwashed masses? This delicious and witty farce fashions the longstanding debate over who really penned the Bard's cannon into a merry look at the mortality of artists and the immortality of their legacy. With a gleeful wink at intervening centuries, the author portrays Will's comic struggles to become an artist in his own right while she reflects on artistic inspiration, the struggle to become an artistic master and the very meaning of creativity.

To survive, he buried his emotions and became only the warrior, riding from battle to battle with his men to protect Scotland from threats within and without her borders and letting himself feel nothing else. But when his right-hand man, Alec Montgomery, is caught dallying with a powerful Lord's daughter, a trap is set. On the Isle of Skye, the raven-haired Merry MacLeod spends her days caring for the clan elderly and hurtling across the moors on the back of her black stallion. After a bold, mysterious youth rescues Ewan and his men from the English, the group swiftly makes their way back to Scotland.
