George Washington Black, or "Wash," an eleven-year-old field slave on a Barbados sugar plantation, is terrified to be chosen by his master's brother as his manservant. To his surprise, the eccentric Christopher Wilde turns out to be a naturalist, explorer, inventor, and abolitionist. Soon Wash is initiated into a world where a flying machine can carry a man across the sky, where even a boy born in chains may embrace a life of dignity and meaning--and where two people, separated by an impossible divide, can begin to see each other as human. But when a man is killed and a bounty is placed on Wash's head, Christopher and Wash must abandon everything. What follows is their flight along the eastern coast of America, and, finally, to a remote outpost in the Arctic. What brings Christopher and Wash together will tear them apart, propelling Wash even further across the globe in search of his true self. From the blistering cane fields of the Caribbean to the frozen Far North, from the earliest aquariums of London to the eerie deserts of Morocco, Washington Black tells a story of self-invention and betrayal, of love and redemption, of a world destroyed and made whole again, and asks the question, What is true freedom?

Ralph Nader is one of America's most passionate and effective social critics. He has been called a muckraker, a consumer crusader, and America's public defender. The cars we drive, the food we eat, the water we drink-their safety has been enhanced largely due to Ralph Nader. His inspiration and example have rallied consumer advocates, citizen activists, public interest lawyers, and government officials into action, and in the 2000 election, nearly three million people voted for him. An inspiring and defiant memoir, *Crashing the Party* takes us inside Nader's campaign and explains what it took to fight the two-party juggernaut; why Bush and Gore were really afraid to let him in on their debates; why progressive Democrats have been left behind and ignored by their party; how Democrat and Republican interests have been lost to corporate bankrolling; and what needs to happen in the future for people to take back their political system.

Twelve Years a Slave

Popular FOX commentator Star Parker explains why today's noisy political rhetoric is good for you and provides specifics on why Trump's presidency is vital for America's future. Star Parker was among the many reeling and confused as Donald Trump became the 45th president of the United States. But, she argues, a silver lining to this outcome is the debate that has since ruled our media and private conversations. The ongoing noise of debate can seem overwhelming, but our country needs the authentic and candid dialogue of its people. And Trump's presidency provides us with an opportunity like never before to engage and work to preserve the values upon which America was built. *Necessary Noise* honestly examines the crossroads where we find ourselves and suggests ways of moving toward resolution and restoration. Tackling a wide range of topics on which citizens should get noisy--from immigration, to education, to abortion, to welfare--*Necessary Noise* provides the framework for how to take part in this important time in history using our voices.

Older Brother is the poignant story of a Franco-Syrian family whose father and two sons try to integrate themselves into a

society that doesn't offer them many opportunities. The father, an atheist communist who moved from Syria to France for his studies and stayed for love, has worked for decades driving a taxi to support his family. The eldest son is a driver for an app-based car service, which comically puts him at odds with his father, whose very livelihood is threatened by this new generation of disruptors. The younger son, shy and serious, works as a nurse in a French hospital. Jaded by the regular rejections he encounters in French society, he decides to join a Muslim humanitarian organization to help wounded civilians in the war in Syria. But when he stops sending news home, the silence begins to eat away at his father and brother who wonder what his real motivations were. When younger brother returns home, he has changed. Guven alternates between an ironic take on contemporary society and the gravity of terrorist threats. He explores with equal poignancy the lives of "Uberized" workers and actors in the global jihad.

Far from Paradise

One of the finest architectural photographers in America, Robert W. Tebbs produced the first photographic survey of Louisiana's plantations in 1926. From those images, now housed in the Louisiana State Museum, and not widely available until now, 119 plates showcasing fifty-two homes are featured here. Richard Anthony Lewis explores Tebbs's life and career, situating his work along the line of plantation imagery from nineteenth-century woodcuts and paintings to later twentieth-century photographs by John Clarence Laughlin, among others. Providing the family lineage and construction history of each home, Lewis discusses photographic techniques Tebbs used in his alternating panoramic and detail views. A precise documentarian, Tebbs also reveals a poetic sensibility in the plantation photos. His frequent emphasis on aspects of decay, neglect, incompleteness, and loss lends a wistful aura to many of the images -- an effect compounded by the fact that many of the homes no longer exist. This noticeable vacillation between objectivity and sentiment, Lewis shows,

suggests unfamiliarity and even discomfort with the legacy of slavery. Poised on the brink of social and political reforms, Louisiana in the mid-1920s had made significant strides away from the slave-based agricultural economy that the plantation house often symbolized. Tebbs's Louisiana plantation photographs capture a literal and cultural past, reflecting a burgeoning national awareness of historic preservation and presenting plantations to us anew. Select plantations included: Ashland/Belle Helene, Avery Island, Belle Chasse, Belmont, Butler-Greenwood, L'Hermitage, Oak Alley, Parlange, René Beauregard House, Rosedown, Seven Oaks, Shadows-on-the-Teche, The Shades, and Waverly.

Uncle Remus

The visionary author's masterpiece pulls us—along with her Black female hero—through time to face the horrors of slavery and explore the impacts of racism, sexism, and white supremacy then and now. Dana, a modern black woman, is celebrating her twenty-sixth birthday with her new husband when she is snatched abruptly from her home in California and transported to the antebellum South. Rufus, the white son of a plantation owner, is drowning, and Dana has been summoned to save him. Dana is drawn back repeatedly through time to the slave quarters, and each time the stay grows longer, more arduous, and more dangerous until it is uncertain whether or not Dana's life will end, long before it has a chance to begin.

"I believe that man will not merely endure: he will prevail. He is immortal, not because he alone among creatures has an inexhaustible voice, but because he has a soul, a spirit capable of compassion and sacrifice and endurance." —William Faulkner, on receiving the Nobel Prize
Go Down, Moses is composed of seven interrelated stories, all of them set in Faulkner's mythic Yoknapatawpha County. From a variety of perspectives, Faulkner examines the complex, changing relationships between blacks and whites, between man and nature, weaving a cohesive novel rich in implication and insight. Battle Lines

"Incidents in the Life of a Slave Girl" was one of the first books to address the struggle for freedom by female slaves; explore their struggles with sexual harassment and abuse; and their effort to protect their roles as women and mothers. After being overshadowed by the Civil War, the novel was rediscovered in the late 20th century and since then hasn't been out of print ever. It is one of the seminal books written on the theme of slavery from a woman's point of view and appreciated worldwide academically as well. Excerpt: "Reader be assured this narrative is no fiction. I am aware that some of my adventures may seem incredible; but they are, nevertheless, strictly true. I have not exaggerated the wrongs inflicted by Slavery; on the contrary, my descriptions fall far short of the facts. I have concealed the names of places, and given persons fictitious names. I had no motive for secrecy on my own account, but I deemed it kind and considerate towards others to pursue this course." Harriet Jacobs (1813–1897) was an African-American writer who was formerly a fugitive slave. To save her family and her own identity from being found out, she used the pseudonym of Linda Brent and wrote secretly during the night.

A Dream of Daring

Star Parker is a firm believer in the American dream. But nowadays, liberals and conservatives, Democrats and Republicans, and secular humanists and Christians have such different worldviews on what America and life are about that all common ground seems lost. We can't talk to one another, let alone respect one another. In this collection of her syndicated columns from 2018, Parker speaks her mind on a range of controversial issues—Christian persecution, the importance of school choice, the collapse of the American family and more—and calls attention to the civil discourse that's essential for our country to function as intended.

What's Cooking, Uncle Sam?

For years many folklorists have denied the possibility of a truly American folk or fairy tale. They have argued that the tales found in the United States are watered-down derivatives of European fare. With this gathering, William Bernard McCarthy compiles evidence strongly to the contrary. *Cinderella in America: A Book of Folk and Fairy Tales* represents these tales as they have been told in the United States from Revolutionary days until the present. To capture this richness, tales are grouped in chapters that represent regional and ethnic groups, including Iberian, French, German, British, Irish, other European, African American, and Native American. These tales are drawn from published collections, journals, and archives, and from fieldwork by McCarthy and his colleagues. Created along the nationalist model of the Brothers Grimm yet as diverse in its voices and themes as the nation it represents, *Cinderella in America* shows these tales truly merit the designation American. William Bernard McCarthy is professor emeritus of English at Pennsylvania State University. His previous books are *The Ballad Matrix: Personality, Milieu, and the Oral Tradition* and *Jack in Two Worlds: Contemporary North American Tales and Their Tellers*.

A Key to Uncle Tom's Cabin

"Timely when originally published, Men and Marriage is essential now given the the warlike climate of male-female relationships, unfortunately fostered by radical feminism." Rush Limbaugh Men and Marriage is a critical commentary that asks the burning question, How can society survive the pervasive disintegration of the family? A profound crisis faces modern social order as traditional family relationships become almost unrecognizable. George Gilder's Men and Marriage is a revised and expanded edition of his 1973 landmark work, Sexual Suicide . He examines the deterioration of the family, the well-defined sex roles it offered, and how this change has shifted the focus of our society. Poverty, for instance, stems from the destruction of the family when unmarried parents are abandoned by their lovers or older women are divorced because society approves of their husbands' younger girlfriends. Gilder claims that men will only fulfill their paternal obligations when women lead them to do so, and that this civilizing influence, balanced with proper economic support, is the most important part of maintaining a productive, healthy, loving society. He offers a concrete plan for rebuilding the family in America. His solutions challenge readers to return to these roles and reestablish the family values that were once so crucial in staving off the ills that plague our country. Gilder insists that it is time to reexamine what "liberation" has wrought and at what cost. Only a return to traditional family values, he contends, can stem the tide of disaster. George Gilder is the author of Wealth and Poverty , the best-selling critique of Reaganomics, The Spirit of Enterprise , Visible Man , Naked Nomads , and The Party That Lost Its Head . He was a speechwriter for Ronald Reagan and now writes regularly for The Wall Street Journal and National Review about material advances and their effect on society. His most recent books include two other well-known social commentaries, Microcosm and Life After Television. Also available in paperback.

exposé of how Muslims have for years been secretly infiltrating American society, government, and culture, pretending to be peace-loving and patriotic, while supporting violent jihad and working to turn America into an Islamic state. In this powder keg of a book, you'll learn: How radical Muslims have penetrated the U.S. military, the FBI, the Homeland Security Department, and even the White House?where subversive Muslims and Arabs have received top-secret clearance. How they've infiltrated the chaplains program in the federal and state prison systems?a top recruiting ground for al-Qaida. How they've successfully run influence operations against our political system with the help of both Democrats and Republicans, badgering corporate boards into Islamizing the workplace. How we've been utterly duped about what the Quran does and doesn't teach. Sadly, much of anti-Western terrorism is simply Islam in practice, the text of the Quran in action. In a time when religious and political leaders are scrambling to smooth over differences in faith and beliefs, this book gives the terrifying truth about the very real, very deadly agenda of Islam and how it has already infiltrated key American institutions with agents, spies, and subversives.

Now a major motion picture nominated for nine Academy Awards. Narrative of Solomon Northup, a Citizen of New-York, Kidnapped in Washington City in 1841, and Rescued in 1853. Twelve Years a Slave by Solomon Northup is a memoir of a black man who was born free in New York state but kidnapped, sold into slavery and kept in bondage for 12 years in Louisiana before the American Civil War. He provided details of slave markets in Washington, DC, as well as describing at length cotton cultivation on major plantations in Louisiana.

Far From Paradise looks at the Caribbean behind the tourist brochures: small, vulnerable countries beset by poverty and injustice, searching for a road out of underdevelopment. It traces the history of the area and looks at recent experiences of Jamaica, Grenada, Trinidad & Tobago, and Haiti--and evaluates their differing approaches towards development. Other sections focus on the role of transnational corporations in the Caribbean, the problems of regional integration and examples of alternative, grassroots development.

Crashing the Party

Decaying values. Sexually transmitted diseases. Fatherless homes. Rampant drug use. These aren't just problems for today's inner cities. It's the plight of all America. Much has been said about Bill Cosby's incendiary remarks about urban black culture and its "dirty laundry." But in this provocative book, Star Parker, one of today's most controversial commentators, goes even further, proving that urban plight simply reveals a decay that is gnawing its way throughout American society as a whole. The sexual chaos, values disorientation, and social turmoil we see in our inner cities, Parker argues, is just a magnified reflection of the moral collapse happening all over America: in our schools, our churches, our homes. And this slide toward moral decrepitude is all due to a flagrant dismissal of and assault on America's tried-and-true values. With startling statistics and disturbing stories about the increasing secularization and criminalization of the middle class, Parker holds a cracked mirror up to suburbia. Taking on tough subjects such as abortion, drug abuse, sexual politics, and religion, she offers a rousing exploration of the raging cultural war-taking you on a wild, eye-opening tour through the White Ghetto. Star Parker is the founder and president of CURE, the Coalition on Urban Renewal & Education, a nonprofit organization that provides national dialogue on issues of race and poverty in the media, inner city neighborhoods, and public policy. Star is a regular commentator on CNN, MSNBC, Fox News, and the BBC, which reaches 300 million homes worldwide. Her articles and quotes have also appeared in major publications including the Wall Street Journal, the Washington Post, and the New York Times, and is currently a weekly syndicated columnist for Scripps Howard News Service. Star is the author of Pimps, Whores, and Welfare Brats and Uncle Sam's Plantation.

Think Right Live Right

Since the beginning of the New Deal, American liberals have insisted that the government must do more—much more—to help the poor, to increase economic security, to promote social justice and solidarity, to reduce inequality, and to mitigate the harshness of capitalism. Nonetheless, liberals have never answered, or even acknowledged, the corresponding question: What would be the size and nature of a welfare state that was not contemptibly austere, that did not urgently need new programs, bigger budgets, and a broader mandate? Even though the federal government's outlays have doubled every eighteen years since 1940, liberal rhetoric is always addressed to a nation trapped in Groundhog Day, where every year is 1932, and none of the existing welfare state programs that spend tens of billions of dollars matter, or even exist. *Never Enough* explores the roots and consequences of liberals' aphasia about the welfare state's ultimate size. It assesses what liberalism's lack of a limiting principle says about the long-running argument between liberals and conservatives, and about the policy choices confronting America in a new century. *Never Enough* argues that the failure to speak clearly and candidly about the welfare state's limits has grave policy consequences. The worst result, however, is the way it has jeopardized the experiment in self-government by encouraging Americans to regard their government as a vehicle for

exploiting their fellow-citizens, rather than as a compact for respecting one another's rights and safeguarding the opportunities of future generations.

This story was handed down to my mother who enlightened me, as I have done with my children. My mother would passionately share this story when I was a young boy. I hope you are entertained as much as I have been over the years. The Mullins families were early settlers to Letcher County, Kentucky, Wise County, Virginia, and parts of southern West Virginia.
