John Ray (1627–1705) contributed several important concepts to the field of plant taxonomy: first, the division of plants into groups based on seed leaves (Monocotyledonae and Dicotyledonae); second, the differentiation between flowering and flowerless plants; third, the use of the term “petal” to designate the “leaf ” of the flower; fourth, the use of stamens and pistils in plant classification, anticipating the emphasis of Linnaeus. Ray worked towards a natural classification of plants that was based on more than one “data set”: classification should not use a single character but ideally should make use of as much information as was available for as many parts of the plant as possible. In this way his work foreshadowed that of Lamarck, de Jussieu and de Candolle in France, and then Bentham and Hooker in England. He worked to popularise the study of plants, to bring it to the level of science, and to systematise previous knowledge of plants into a workable whole. If not for the innovative use of binomials by Linnaeus, perhaps John Ray might have been more widely remembered as the true “Father of Plant Taxonomy”. Ray sets out his 'new' classification of plants in *Methodus Plantarum Nova* and discusses some basic aspects of their biology. This book is its first English translation: though occupying an important place in the history of Botany, hitherto it has been available only in its original language, Latin.

Dynamic Business Law: The Essentials is appropriate for the one-semester Business Law course. It contains the basics of business law but does not get bogged down in the kind of details that are more appropriate in an upper-level law class. The text provides an examination of the basic questions, concepts, and legal rules of business law. Emphasis on the BUSINESS in business law. Dynamic Business Law: The Essentials emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Faculty need to know how this is integrated as they are constantly 'defending' the inclusion of this course in the business curriculum. And students need to understand how the concepts tie to their future business careers. Emphasis on TEACHING. Many professors teaching this course are attorneys first and academics second. They do

not have a lot of time to prepare or think about how to apply this information effectively for their business students. Dynamic Business Law: The Essentials contains a helpful instructor's manual, particularly for the many adjuncts teaching this course. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law: The Essentials as well – to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to tie in this component even further.

Annie John is a haunting and provocative story of a young girl growing up on the island of Antigua. A classic coming-of-age story in the tradition of *The Catcher in the Rye* and *A Portrait of the Artist as a Young Man*, Kincaid's novel focuses on a universal, tragic, and often comic theme: the loss of childhood. Annie's voice—urgent, demanding to be heard—is one that will not soon be forgotten by readers. An adored only child, Annie has until recently lived an idyllic life. She is inseparable from her beautiful mother, a powerful presence, who is the very center of the little girl's existence. Loved and cherished, Annie grows and thrives within her mother's benign shadow. Looking back on her childhood, she reflects, "It was in

such a paradise that I lived." When she turns twelve, however, Annie's life changes, in ways that are often mysterious to her. She begins to question the cultural assumptions of her island world; at school she instinctively rebels against authority; and most frighteningly, her mother, seeing Annie as a "young lady," ceases to be the source of unconditional adoration and takes on the new and unfamiliar guise of adversary. At the end of her school years, Annie decides to leave Antigua and her family, but not without a measure of sorrow, especially for the mother she once knew and never ceases to mourn. "For I could not be sure," she reflects, "whether for the rest of my life I would be able to tell when it was really my mother and when it was really her shadow standing between me and the rest of the world."
