New chapters on Lean Enterprise, Six Sigma, Experimental Design, and Taguchi's Quality Engineering have been added, and this new Ninth Edition adds comprehensive coverage of fundamental statistical quality improvement concepts. A practical state-of-the-art approach is stressed throughout, and sufficient theory is presented to ensure that students develop a solid understanding of basic quality principles. Beginning in the 1850s when the first steam-powered tugboats arrived in the Sound from the East Coast via San Francisco, company owners and their crews competed fiercely for business, towing ships, log rafts, and barges. The magnetic attraction of powerful, tough tugs both large and small is unexplainable but enduring. In this “evocative first novel,” an elderly woman looks back on the world of revolutionary Cuba as she recalls her intimate, secret love affair with Ernesto “Che” Guevara (Publishers Weekly). A young Cuban woman has been searching in vain for details of her birth mother. All she knows of her past is that her grandfather fled the turbulent Havana of the 1960s for Miami with her in tow, and that pinned to her sweater—possibly by her mother—were a few treasured lines of a Pablo Neruda poem. These facts remain her only tenuous links to her history, until a mysterious parcel arrives in the mail. Inside the soft, worn box are layers of writings and photographs. Fitting these pieces together with insights she gleans from several trips back to Havana, the daughter reconstructs a life of her mother, her youthful affair with the dashing, charismatic Che Guevara and the child she bore by the enigmatic rebel. *Loving Che* is a brilliant recapturing of revolutionary Cuba, the changing social mores, the hopes and disappointments, the excitement and terror of the times. It is also an erotic fantasy, a glimpse into the private life of a mythic public figure, and an exquisitely crafted meditation on memory, history, and storytelling. Finally, *Loving Che* is a triumphant unveiling of how the stories we tell about others ultimately become the story of ourselves. “A moving novel from a
