Someone on posh Callander Square will kill to keep a secret in this “superior” mystery from the New York Times–bestselling author of *Twenty-One Days* (The San Diego Union-Tribune). When two dead infants are dug up in the Callander Square gardens, the upper-class residents dismiss the burials as the desperate act of a low-born girl and resent the intrusion of Inspector Thomas Pitt into their well-ordered lives. Pitt is not convinced that the case should be so easily dropped. Also intrigued by the mystery, Pitt’s well-born wife, Charlotte, pursues her own investigation into places Thomas would never have access—the parlors and inner chambers of the mansions on the fashionable square. With her sister Emily, Lady Ashworth, who lives on Callander Square, she delves into the lives and secrets of the residents. Thomas and Charlotte, now expecting their first child, form the perfect sleuthing couple. Elegant closets soon spill their skeletons exposing long-hidden secrets—secrets that could lead even the most upright aristocrat to kill. But will Pitt’s keen investigative skills and Charlotte’s insights into the workings of high-class society solve the mystery in time to save the innocent residents of Callander Square from the murderer among them? *Callander Square* is the 2nd book in the Charlotte and Thomas Pitt Novels, but you may enjoy reading the series in any order.

The discovery of deadly biological poisons and mass slaughter at an archaeological dig in Egypt puts a previously hidden enemy in Bolan's crosshairs. It begins hot, fast and bloody as Bolan unearths a mysterious pretender to the Egyptian throne who is harnessing the bloodlust of terrorist groups to launch a Middle East endgame. Playing all factions— Muslim, Jewish and Christian—against the others, the self-proclaimed Eternal Pharaoh has the ambition and the army to unleash a storm of violence in the region that promises all-out war. This dark enemy and his predecessors have sown the seeds of their magnificent coup for generations, but never anticipated an enemy so righteous in his fury—a relentless, implacable hunter called the Executioner.

The Reality Bug

“[A] luminous tale of passion and betrayal” set in the post-colonial and civil war eras of Sierra Leone (The New York Times). Winner of the Commonwealth Writers’ Prize for Best Book As a decade of civil war and political unrest comes to a devastating close, three men must reconcile themselves to their own fate and the fate of their broken nation. For Elias Cole, this means reflecting on his time as a young scholar in 1969 and the affair that defined his life. For Adrian Lockheart, it means listening to Elias’s tale and following his own heart into a heated romance. For Elias’s doctor, Kai Mansaray, it’s desperately battling his nightmares by trying to heal his patients. As each man’s story becomes inexorably bound with the others’, they discover that they are connected not only by their shared heritage, pain, and shame, but also by one remarkable woman. The Memory of Love is a beautiful and ambitious exploration of the influence history can have on generations, and the shared cultural burdens that each of us inevitably face. “A soft-spoken story of brutality and endurance set in postwar Sierra Leone . . . Tragedy and its aftermath are affectingly, memorably evoked in this multistranded narrative from a significant talent.” —Kirkus Reviews

Since the industrialization and urbanization of the Western workforce, tanned skin has been perceived increasingly as attractive and fashionable for naturally light-skinned individuals. However, in addition to causing tanning, photo-aging, and other health effects, ultraviolet radiation (UV) is a well-known carcinogen. Despite wide-spread awareness of UV risks, tanning has become increasingly popular in several Western countries including the USA. While millions of individuals tan indoors each day, relatively little is known about this phenomenon. This book fills that gap by providing an overview of indoor tanning, reasons for its popularity, its risks including skin cancers, and the public health context surrounding the behavior. We have invited some of the preeminent experts in the field to summarize the existing scientific literature for each of the chapters. *Shedding Light on Indoor Tanning* is an up-to-date and comprehensive book that provides a unique and essential overview of the most significant current issues related to indoor tanning for scientists, educators, students, clinicians, and the general public interested in dermatology, aesthetic trends, skin care, and skin cancer.

Rantoul and the former Chanute Air Force Base are inseparably intertwined as primary players in a single historical narrative. Rantoul was first founded as an agriculturally based community in 1848 near an area known as Mink Grove. The settlement boomed with the coming of the Illinois Central Railroad in 1854; a railroad championed by the town's namesake, Robert Rantoul Jr. Disaster followed in 1899 and again in 1901 with devastating fires. Then, in 1917, a U.S. Army flying field was built on the outskirts of Rantoul. Named after the aviation pioneer Octave Chanute, Chanute Field, later Chanute Air Force Base, became a premier technical training facility. A mutually beneficial relationship quickly developed between these civilian and military establishments that would last for over 75 years. Chanute Air Force Base closed in 1993, ushering in yet another new era for the village of Rantoul.

Beside Your Heart

A stunning literary survival story of three young Sudanese boys, two brothers and a cousin—hailed by the Los Angeles Times as a “moving, beautifully written account, by turns warm and tender.” Between 1987 and 1989, Alepho, Benjamin, and Benson, like tens of thousands of young boys, took flight from the massacres of Sudan's civil war. They became known as the Lost Boys. With little more than the clothes on their backs, sometimes not even that, they streamed out over Sudan in search of refuge. Their journey led them first to Ethiopia and then, driven back into Sudan, toward Kenya. They walked nearly one thousand miles, sustained only by the sheer will to live. They Poured Fire on Us from the Sky is the three boys' account of that unimaginable journey. With the candor and the purity of their child's-eye-vision, Alephonsian, Benjamin, and Benson recall by turns: how they endured the hunger and strength-sapping illnesses—dysentery, malaria, and yellow fever; how they dodged the life-threatening predators—lions, snakes, crocodiles and soldiers alike—that dogged their footsteps; and how they grappled with a war that threatened continually to overwhelm them. Their story is a lyrical, captivating, timeless portrait of a childhood hurled into wartime and how they had the good fortune and belief in themselves to survive.
